

ASUS Chromebook C300SA

LIVE YOUR MOBILE LIFE IN STYLE

The ASUS Chromebook C300SA, powered by Intel[®] Celeron[®], is the ideal education computer for school IT managers, students and teachers in every school. Its long battery life and light weight allows the ASUS Chromebook C300SA to meet the daily rigorous and intense usage by students both inside and outside of the classroom. The result is a Chromebook which is designed for maximum usage and creating more learning opportunities for students.

Choose Your Mobile Style!

The incredibly sleek and light Chromebook C300SA is designed to be highly portable. Weighing at just 1.35kg, it would not hinder your mobile lifestyle. Its stylish looks will make you the center of attention while adding a touch of your own personality. It is also available in the sophisticated brushed Cool Black colour.

Work or Play All Day!

We know there is nothing more frustrating than having to find a power outlet when you have important things to do and the battery level is running low. The power-efficient Chromebook C300SA is designed to last for up to an incredible 15 hours* on a single charge. Whatever you are doing, you can be sure that the Chromebook C300SA will keep your task going through the entire working day!

Powerfully Clear Sound

It may be slim and light but that does not mean that the Chromebook C300SA has to compromise on sound quality. With its high-quality stereo speakers and extra-large resonant chambers that generate up to 87dB of high-fidelity audio, the Chromebook C300SA can deliver surround sound that is as good as large powerful laptops. Its crisp and powerful audio gives you an immersive experience for both music and video streaming.

Typing Comfort, Redefined

Typing is now more comfortable than ever with the full-size one-piece chiclet keyboard. With an improved back-assembly, it provides 1.5mm of key travel and minimal key float so you get a more solid typing feel. The spacious touchpad has a palm rejection feature which differentiates between actual fingertip and palm contact to counter unintentional cursor movement.

Get Connected - Fast!

Connectivity is very important in our daily lives nowadays. The Chromebook C300SA features the latest and fastest 802.11ac Wi-Fi for speed up to three times faster than the usual 802.11n connection speed. The Chromebook C300SA also features a power-efficient Bluetooth[®] 4.0 for fast connectivity with great battery life.

Simple, Secure and Reliable

Best-In-Class Drop Test from a drop height of 120cm ensures that it is able to function without disruption. Extreme twist force and high-pressure testing ensures that it is able to withstand the physical stress when used frequently over prolonged period of time. The various shock trials as well as multiple frequency vibration tests ensures that the solid and sturdy construction of the device is well-assured.
