

PA329 LCD Monitor

Color Calibration Testing Report

Every ASUS PA329 is equipped with pre-tuned sRGB and Adobe RGB and has undergone rigorous tests and calibration processes to ensure that color difference, ΔE , is less than 2. Brightness and color uniformity compensation help to solve the problems include fluctuations in brightness and chroma on different parts of the screen thus, preventing color inaccuracy and inconsistency on screen.

ASUS advanced gray-scale tracking technology ensures smoother color gradation delivered by every ASUS PA329.

Serial No.	xxxxxxxxxx
Test Equipment	Minolta Color Analyzer CA310 Minolta Color Analyzer CA2000
Criteria	Color accuracy: Delta E<2 (Avg.) Uniformity: 95% (Typ.)

Note1: The sRGB and Adobe RGB calibrations of every ASUS PA329 are pre-tuned and tested under ASUS standardized procedures using calibrated facilities at the factory manufacturing line. This report is a certificate only for the newly manufactured ASUS PA329 monitor unit. Test results may vary under different test procedures, equipment and patterns.
