ASUS - TOP 2 GLOBAL CONSUMER NOTEBOOK BRAND

ASUS is the world's top 2 consumer notebook brand, and maker of the best motherboards available. ASUS designs and manufactures a diverse range of products as part of our relentless search for incredible, including desktop PCs, displays, graphics cards, netbooks, networking devices, servers, smartphones and tablets. Design thinking and a commitment to putting user needs first drive everything ASUS creates. ASUS won a total of **4,326** awards worldwide in 2014. ASUS employs more than 12,500 people around the world and our leading R&D team has some 3,800 engineers. Company revenue for 2013 was approximately US\$14billion.

According to the recently-released IDC Q4 2012 report, ASUS reached the top 2 spot in consumer notebooks, and is top 3 in overall notebook PC sales, if counting commercial and organizational segments.

TOP 1

Notebook Brand in Central and Eastern Europe

TOP 1

Notebook Brand in China and Southeast Asia

TOP 3

Notebook Brand in Western Europe

* According to IDC definition Asia Pacific countries excluding Japan and China.

Malaysia's NO.1 BIGGEST NOTEBOOK BRAND in 2014

ASUS has achieved an incredible milestone being ranked No.1 leading notebook brand for Malaysia market in accordingly to the recently released GFK (2014) report. This is a major achievement for ASUS as a leading, quality-assured and reliable PC brand in the market.

WORLD'S NO.1 MOTHERBOARD BRAND

ASUS has shipped more than 420 million motherboards since 1989. One in every three PCs sold worldwide in 2010 had an ASUS motherboard. As motherboards are the very foundation of PC quality and reliability, you can be sure that ASUS always offers the best.

ASUS GREEN TECHNOLOGY

ASUS continues to lead the industry in the adoption of greener technology, and was the first IT enterprise in the world to achieve EU Flower certification for desktops and EuP Certification for notebooks.

TOP-RATED IN QUALITY AND SERVICE

ASUS strives for perfection in all products, and we consistently win awards for quality and innovation. This is reflected in the top ranking we attained for product quality and customer service from the Wall Street Journal Asia.

ASUS WINNER OF 4,326 AWARDS IN 2014

The ongoing ASUS search for perfection delivers incredible products. Our commitment to performance, innovation, and quality are recognized by worldwide media, as we received 4,326 major awards in 2014.

2014 iF Product Design Awards

ASUS products won 11 prestigious iF Product Design Awards in Munich last year. Spanning three product design categories, the awards are the most ever won by ASUS at a single iF Design Awards ceremony. iF Design Awards are recognized worldwide as seal of quality for products that excel in specific criteria including design quality, degree of innovation, functionality, ergonomics and more.

2014 CES Innovations Award

Seventeen ASUS products have received the prestigious 2014 CES Innovations Award, with wins covering a wide range of innovative designs and technologies across six award categories. This impressive award tally is clear recognition of ASUS's people-centric, innovative design-driven approach to its products and services. On top of that, the ASUS Transformer Book Trio received the 2014 CES Best of Innovations Award – an accolade reserved for the highest rated product in its category.

When ASUS smartphone made its debut in 2014, it quickly became consumer's favourite. As the result, ASUS immediately gained its position as the No.3 smartphone brands in Malaysia. Incredible achievement for first start!

Source: IDC Q3 & Q4, 2014 report

EXTREME TEST

ENSURE TOP-QUALITY NOTEBOOK

Take a look at what makes ASUS notebooks the most trustworthy in the business. If we listed every test and step our engineers actually use to make sure you get the best notebooks possible, this would go on forever — so consider this a taste!

KEYBOARD TESTING

Express yourself confidently thanks to keyboard durability tests, where special robots punch each key to check its feedback and lastability even in the face of some brutal input!

ABRASIVE TESTING

Abrasive resistance test subjects ASUS notebook exteriors to friction, indicating colors and surface materials stay at prime condition even after extensive and demanding usage.

NOISE TESTING

Abrasive noise tests check for loud fans, storage, even power delivery buzz, hushing them to create quiet notebooks. The entire chassis then passes audio tuning to deliver the best sound possible.

PRESSURE TESTING

Premium panels must handle limited spaces such as suitcases, and allow you to touch them without causing damage or distortion, so panel pressure testing ensures ASUS notebooks only use the best.

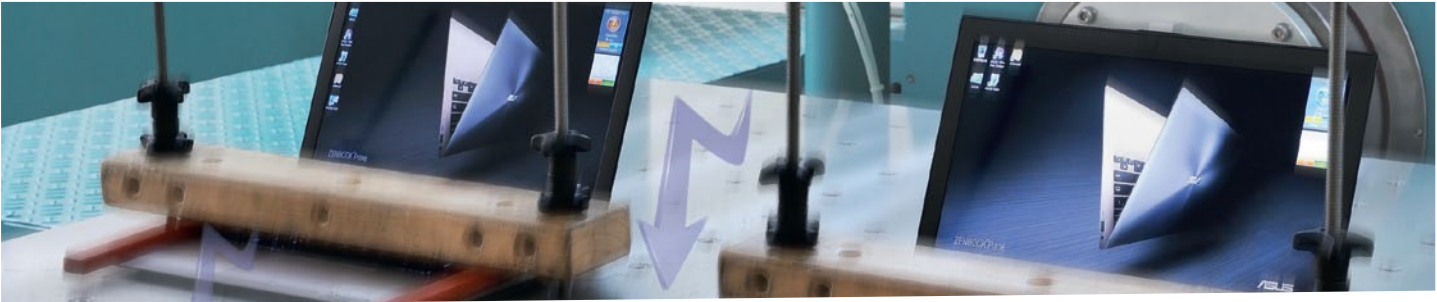

ENHANCED HINGE TESTING

Notebook lid hinges are weak spots. Use cheap materials and they'll snap. Vigorous hinge testing conducts thousands of open/close cycles, making sure hinges last the life of your notebook.

ASUS recommends Windows.

ASUS QUALITY ●●●

VIBRATION TESTING

Riding on bumpy roads, some PCs may start falling apart. Not ASUS notebooks. Harsh vibration testing ensures parts stay put and performance remains consistent even when the shaking starts!

SHOCK TESTING

Shock test takes notebooks and simulates incidents that occur during shipping. With a big smile on their face, engineers make sure the notebooks survive these with no performance penalty.

TWIST TESTING

Twist test checks chassis rigidity. Grabbing the notebook with one hand? No problem, this trial checks for uneven twist force endurance to give you the flexibility you need.

HIGH ACCELERATION TEST

Halt test stands for «Highly Accelerated Life Test», and expressmoves notebooks through their typical life cycle to ferret out problems, with extensive analysis conducted by engineers.

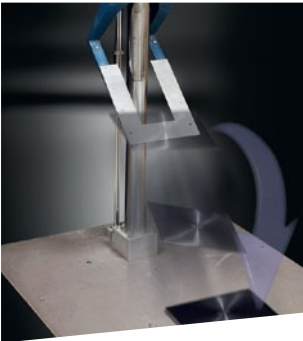

PORT TESTING

Port test ascertains contacts and plugs are solid for frequent plugging / unplugging and can handle cable quality variations without data transfer and fidelity degradation.

TEMPERATURE TESTING

Tough temperature tests verify diverse operating conditions, from every low temperatures to high heat, including humidity for accurate results. Whatever the mercury shows, ASUS notebooks can take it.

DROP TESTING

Drop test proves notebook free fall resistance. ASUS quality means notebooks handle drops with no damage to internal components or external design, far beyond industry standards.

ASUS Customer Happiness 2.0

ASUS Customer Happiness 2.0 evolves around the concept of optimizing your usage experiences. More than just offering industry-leading products technically, we are committed to providing you with stunning visuals with our focus on design aspects, incredible sound experiences with exclusive audio softwares and hardware, intuitive touch experiences, not forgetting increasing your ease of computing with 2-second instant on from sleep and providing you with cloud storage for additional storage needs.

With you in mind, ASUS is motivated to keep pushing our boundaries to meet your ever-changing computing needs.

Marks in History : ASUS Notebooks

ASUS notebooks have proven themselves in harshest conditions and locations, becoming the stuff of legend. The embody the ASUS search for incredible experiences and technology, mempowering courageous and adventurous people everywhere. Let’s take a look at several feats that have left an incredible mark on computing history.

<p>In outer space Zero defects during 600 days in orbit!</p> <p>Two ASUS notebooks were selected by R&K, a major computers and electronics supplier to the aerospace industry, to provide astronauts with dependable computing hardware. “ASUS notebooks never overheated”, said Sergei Avdeev, one of the Russian cosmonauts. “Only notebooks with the best cooling can survive continuous operation in space, and our ASUS notebooks worked problem-free.”</p>	
<p>In the air Helping the NRMA CareFlight Helicopter rescue unit save lives!</p> <p>NRMA CareFlight uses ASUS notebooks in different fields, including aviation, medical treatment, and administration. ASUS notebooks play a critical role in improving survival rates in severe head trauma incidents. They help medical teams arrive on-sit faster than ambulances, with fatalities lowered by 33%. “Our pilots are very impressed with ASUS notebooks and amazed at their durability,” said Mark Lees, Community Relations Manager of CareFlight.</p>	
<p>At the ends of the earth Conquering Antarctica</p> <p>A December 2003 expedition with acclaimed mountaineers Shi Wang and Jian Liu set out to reach the summit of Mount Vinson, the tallest peak in Antarctica at 16,000 feet, where temperatures drop below -100°F. Wang and Liu brought ASUS S200N notebooks, which met their need perfectly, being light and compact and designed to handle the rigors of exploration. “It was great having notebooks we could count on in situations where malfunctions are unacceptable,” said Shi Wang.</p>	
<p>On the Road Flawless performance during grueling off-road racing</p> <p>ASUS notebooks performed critical tasks at the PATAGONIA 2000 race, used in hot desets and on snowy mountains. They acted as navigation devices, exceling due to their built-in GPS and dynamic maps. They were also mobile communication centres, enabling email and video conferencing. “ASUS computers survived severe conditions without a single flaw,” said race organizer Aviv Shweky.</p>	
<p>On the world’s highest peak First notebooks to scale Mount Everest</p> <p>Conditions at the world’s tallest mountain may faze other notebooks, but ASUS U5/S6, W7, and U1 notebooks were chosen to accompany an expedition to the top at Mount Everest. The U5 even made it to the peak at a height of 8848m, with expedition leader Captain Wang YongFong carrying it as a tribute to eco-friendly technology and making ASUS the world’s first notebooks at the top of Mount Everest.</p>	
<p>Braving the desert Survival of the fittest at Lop Nor</p> <p>The ASUS search for incredible goes on, with the ASUS team taking ASUS Zenbook to Xinjiang’s Lop Nor dry lake in China, which has a reputation for being one of the most challenging parts of the world. Located in the Kumtag desert, the region has extreme temperature changes with high heat during the day and freezing cold at night, a nearly complete absence of moisture, and dangerous wind gusts. This barren and has been used in the past for nuclear weapons testing, and today few people live there. ASUS notebooks made it through the trek, helping capture incredible experiences and moments.</p>	

and history will be continued ...

ASUS Pick-Up & Return Service FROM YOUR DOORSTEP

Still trying to find the closest service centre? Too busy to send your notebook for service by post or courier?

Sleek 7.6mm tablet weighs just 720g — take it everywhere
- Intel® Core™ M processor

Effortless mobility for both work and play

ASUS recommends Windows.

ASUS Transformer Book Series

Ideal for work, perfect for play

Let's admit it: carrying both a tablet and a laptop is a nuisance. Chi is a 2-in-1, which means exactly what it says — it's a Windows laptop with a keyboard that detaches, turning it into a Windows tablet. Two devices, in one beautiful package. It's a simple idea that's elegant and convenient, too. Need to work? It's a powerful laptop. Time to relax? Detach the keyboard and it's a handy tablet. No fuss, no hassle.

Thinner. Lighter

Transformer Book T300 Chi looks smooth, slim and sophisticated, and it's tough at heart. The body and display are both precision-crafted, all-aluminum one-piece designs that eliminate the need for ugly seams and screws. So even though it's just 7.6mm thin and weighs only 720g as tablet, there's no loss of strength. Chi takes real life in its stride, without missing a beat.

Diamond Cut

Seamless design with diamond-cut edge

Transformer Book Chi may look smooth, slim and sophisticated, but it's tough at heart. The body and display are both precision-crafted, all-aluminum one-piece designs that eliminates the need for ugly seams and screws. This also means we can make it thinner and lighter with no loss of strength. Chi takes real life in its stride, without missing a beat.

SonicMaster

Powerful, crystal-clear stereo sound

Chi banishes the idea that small size means small sound. Exclusive ASUS SonicMaster technology combined with powerful stereo speakers gives you crystal-clear audio with deep, rich bass. Now you can enjoy the ultimate sound experience — anywhere!

ASUS Zenbook Series ●●●

12.3mm | 1.2kg

Thinner, lighter, faster

Your slim, featherweight powerhouse

ZenBook UX305 weighs a mere 1.2kg, and is just 1.2cm thin. It is quite simply the thinnest and lightest laptop with a 13.3-inch FHD display.

Sheer elegance, cool colors

Agile beauty for all to behold

The light, agile ZenBook UX305 epitomizes elegance with its two chic finishes – refined white Ceramic Alloy or Obsidian Stone with spun-metal hairline details, and subtle diamond-cut edges that further highlight its understated beauty.

Diamond Cut

More power packed then ever

Serious computing muscle delivered

With up to 4GB memory, ultra-fast 256GB SSD storage, high-speed 802.11ac Wi-Fi connectivity and three USB 3.0 ports, ZenBook UX305 is turbocharged for your every computing need. And with its super-quiet, fanless design your enjoyment is never disturbed.

Windows 8.1	256GB	4GB	X3	802.11ac
OS	SSD	RAM	USB3.0	Wi-Fi

Finer display for finer details

Quadruple your visual enjoyment

Your life comes to life on ZenBook UX305's Full HD display. Its 300cd/m2 brightness, 178-degree viewing angle and anti-glare coating render images with far more depth. The advanced ASUS technology delivers full-bodied, accurate colors in an extra-wide color gamut (72% NTSC) for truly stunning, vivid visual delights.

ASUS recommends Windows.

ASUS Performance Series ●●●

A classic, timeless design

Reliable and comfortable to use, the new ASUS A Series notebook has a spun-circle finish for a classy, elegant feel. Its slim profile is 5% thinner than the previous A Series notebook, and still houses to a large touchpad with intuitive multi-point Smart Gesture input, multiple USB 3.0 ports for fast data transfer and IceCool technology to keep your palm rests cool.

Providing a smooth computing experience

Value-packed with all the essentials, the new ASUS A Series reinvents your daily computing experience. Whether you are using it for work or for fun, this is an ideal machine for both productive computing and entertainment. It features up to an Intel® Core™ processor and graphics card, Instant on that resumes your computer from sleep mode in 2 seconds and USB 3.0 for 10 times faster data transfer speed. New ASUS A Series gives you everything you need for a truly satisfying multitask computing and multimedia experience.

A notebook with smartphone-like accessibility

The A450 features the exclusive ASUS Super Hybrid Engine II with instant on to provide you with smartphone-like levels of accessibility. It can resume from sleep mode in just two seconds and has up to 14 days of standby time. It automatically saves your data when battery levels drop below 5%, so your documents are kept safe and secure.

Resume in
2 Seconds

Precise, crystal clear audio to complete the cinematic experience

On most notebooks, all sound frequencies originate from small onboard speakers. The resulting audio comes from a single source and lacks distinctiveness. Like other notebooks in the ASUS range, the new ASUS A Series comes equipped with SonicMaster technology and ASUS AudioWizard to bring you high fidelity audio. Experience omnidirectional sound and hear each individual instrument's nuances with the new ASUS A Series.

1

Legendary history-making

Flawless performance even in extreme conditions

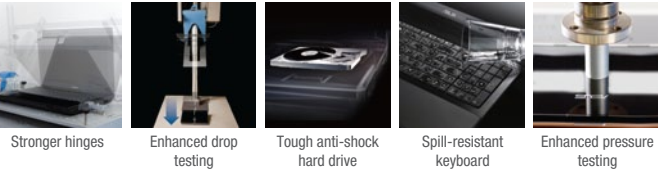

ASUS notebooks have been tested in the most punishing of conditions and the most remote locations. Many of these incredible feats have become the stuff of legend, accomplishments that have left an indelible mark on history.

3

Extra reliable

Strictest testing proven to exceed the US MIL-STD 810G military standard

Business and organizational users demand greater reliability, so ASUSPRO BU401 notebooks go beyond the demanding US MIL-STD 810G military standard. They prove very durable in shock tests, drop tests, hinge cycle tests, and panel pressure testing, so your business benefits from steadfast reliability even in extreme conditions.

5

Eco-friendly

Leading in green technology with the highest environmental standards

ASUS has been leading the industry in eco-friendly processes, minimizing its environmental impact with an initiative dubbed Green ASUS. This covers green design, green manufacturing, and green procurement. The ASUSPRO Series succeeds in combining lower total cost of ownership with the highest environmental standards, certified EPEAT, Energy Star, and RoHS-compliant.

7

Seamless security

Complete protection through hardware and software features

Data safety is very important for businesses, so the ASUSPRO Series provides total security using multiple hardware and software layers. This includes onboard anti-shock hard drives that secure data against shocks and drops, fingerprint scanning that takes access authorization to a higher level, and smart card-based identification for logins and online transaction approval.

2

Worldwide services

ASUS guarantees all notebooks with free repairs and component replacement as needed within the 2-years warranty period. In addition, ASUS international warranties make sure your investment is protected even if you relocate, with support centers in 55 countries. This is the ASUS pledge of quality and customer satisfaction, wherever you might be.

4

Designed professional

World-class award-winning design

Starting with people and understanding what users think, feel, and do is how we design ASUSPRO Series notebooks. We believe business should be more mobile, powerful, easier, and comfortable to use, so ASUSPRO BU401 combines a variety of great functions into one Ultrabook™ at just 1.64kg. It measures a slim 21mm, is highly durable, and reinforced with tough carbon fiber construction, a metal frame structure, and anti-shock hard drives that secure data against damage. It features a true-comfort keyboard, adding to the many reasons ASUSPRO is best for business. ASUSPRO BU401 has secured awards from iF Design, Red Dot (Germany), Good Design (Japan), and an Excellence Award (Taiwan).

6

Long battery life

Good for the environment with three times the battery longevity

The ASUSPRO Series uses long-life batteries as a standard feature, lasting three times longer than traditional li-ion batteries. Power packs are eco-friendly and money-saving due to a lower replace rate, plus ASUS Xpress Charge technology can even charge your ASUSPRO Series notebook to 90% in just 90 minutes.

8

Worry-free

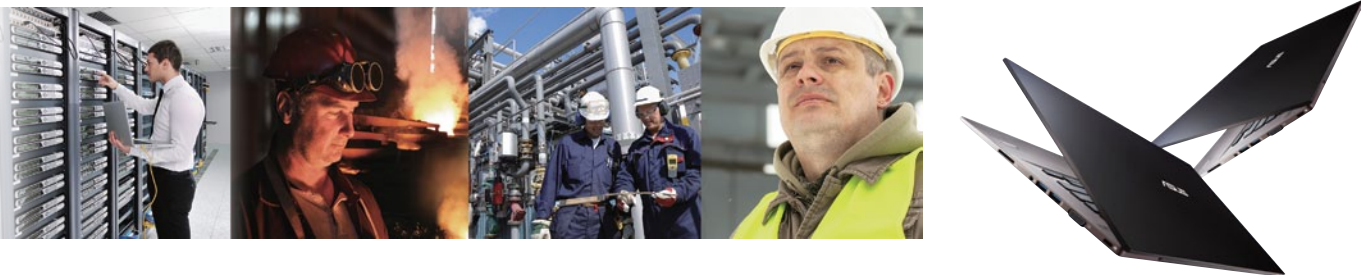

Trace and locate services for lost or stolen notebooks

When you lose your work notebook, a serious concern is confidential data being accessed by external parties. The ASUSPRO Series provides trace and retrieval services of lost or stolen notebooks, with each model pre-installed with Intel® Anti-Theft Technology to remotely disable access to the operating system, which means the notebook is locked and cannot be used by others. Computrace® LoJack® for Laptops software is included, and can also remotely lock and delete data before it falls into the wrong hands. The LoJack® for Laptops dedicated theft recovery team then works with local law enforcement to track down and recover lost or stolen notebooks.

ASUSPRO B ADVANCED

An Ultrabook™ for your business

ASUS NOTEBOOKS, TABLETS & PHONE THE CHOICE OF IT PROFESSIONALS

ASUS recommends Windows.

In today's digital age, our devices such as notebooks, tablets and mobile phones store lots of sensitive personal data. That's why IT professionals all over the world choose ASUS. They know that ASUS is synonymous with quality and reliability. Whatever you use your device for, be it watching movies, listening to music or viewing photos - ASUS is the natural choice delivering technology and style. But don't take our word for it. Consult an IT expert before purchasing.
