ASUS WINNER OF 4,326 AWARDS IN 2014

The ongoing ASUS search for perfection delivers incredible products. Our commitment to performance, innovation, and quality are recognized by worldwide media, as we received 4,326 major awards in 2014.

2014 IF Product Design Awards

ASUS products win 11 prestigious IF Product Design Awards in March last year. Spanning three product design categories, the awards are the most ever won by ASUS at a single IF Design Awards ceremony. IF Design Awards are recognized worldwide as a seal of quality for products that excel in specific criteria including design quality, degree of innovation, functionality, ergonomics and more.

2014 CES Innovations Award

Selected ASUS products have received the prestigious 2014 CES Innovations Award, with our range covering a wide range of innovative designs and technologies across six award categories. This impressive award tally is clear recognition of ASUS's people-centric, innovative design-driven approach to its products and services. On top of that, the ASUS Transformer Book Trio received the 2014 CES Best of Innovations Award — an accolade reserved for the highest rated product in its category.

ASUS WINNER OF 4,326 AWARDS IN 2014

For the year 2014, ASUS has successfully maintained its leading position as the top leader of notebook brand in Malaysia market.

Source: GFK 2014 report

Apart from the notebook’s achievement, ASUS is also one of the top Android Tablet Brand in Malaysia. Currently ranked at No.2, ASUS will continue to strive forward and become the leader of all Android Tablets.

Source: GFK Q4, 2014 report

When ASUS smartphone made its debut in 2014, it quickly became consumer’s favourite. As the result, ASUS immediately gained its position as the No.3 smartphone brands in Malaysia. Incredible achievement for first start!

and many more....
EXTREME TEST
ENSURE TOP-QUALITY NOTEBOOK

Take a look at what makes ASUS notebooks the most trustworthy in the business. If we listed every test and step our engineers actually use to make sure you get the best notebooks possible, this would go on forever — so consider this a taste!

KEYBOARD TESTING
Express yourself confidently thanks to keyboard durability tests, where special robots punch each key to check its feedback and lastability even in the face of some brutal input!

ABRASIVE TESTING
Abrasive resistance test subjects ASUS notebook exteriors to friction, indicating colors and surface materials stay at prime condition even after extensive and demanding usage.

PRESSURE TESTING
Premium panels must handle limited spaces such as suitcases, and allow you to touch them without causing damage or distortion, so panel pressure testing ensures ASUS notebooks only use the best.

ENHANCED HINGE TESTING
Notebook lid hinges are weak spots. Use cheap materials and they’ll snap. Vigorous hinge testing conducts thousands of open/close cycles, making sure hinges last the life of your notebook.

NOISE TESTING
Abrasive noise tests check for loud fans, storage, even power delivery buzz, hushing them to create quiet notebooks. The entire chassis then passes audio tuning to deliver the best sound possible.

SHOCK TESTING
Shock test takes notebooks and simulates incidents that occur during shipping. With a big smile on their face, engineers make sure the notebooks survive these with no performance penalty.

VIBRATION TESTING
Riding on bumpy roads, some PCs may start falling apart. Not ASUS notebooks. Harsh vibration testing ensures parts stay put and performance remains consistent even when the shaking starts!

TWIST TESTING
Twist test checks chassis rigidity. Grabbing the notebook with one hand? No problem, this trial checks for uneven twist force endurance to give you the flexibility you need.

HIGH ACCELERATION TEST
Halt test stands for «Highly Accelerated Life Test», and express moves notebooks through their typical life cycle to ferret out problems, with extensive analysis conducted by engineers.

PORT TESTING
Port test ascertains contacts and plugs are solid for frequent plugging / unplugging and can handle cable quality variations without data transfer and fidelity degradation.

DROP TESTING
Drop test proves notebook free fall resistance. ASUS quality means notebooks handle drops with no damage to internal components or external design, far beyond industry standards.

TEMPERATURE TESTING
Tough temperature tests verify diverse operating conditions, from every low temperature to high heat, including humidity for accurate results. Whatever the mercury shows, ASUS notebooks can take it.
ASUS Customer Happiness 2.0

ASUS Customer Happiness 2.0 evolves around the concept of optimizing your usage experiences. More than just offering industry-leading products technically, we are committed to providing you with stunning visuals with our focus on design aspects, incredible sound experiences with exclusive audio softwares and hardware, intuitive touch experiences, not forgetting increasing your ease of computing with 2-second instant on from sleep and providing you with cloud storage for additional storage needs.

With you in mind, ASUS is motivated to keep pushing our boundaries to meet your ever-changing computing needs.

Marks in History: ASUS Notebooks

ASUS notebooks have proven themselves in harshest conditions and locations, becoming the stuff of legend. They embody the ASUS search for incredible experiences and technology, empowering courageous and adventurous people everywhere. Let’s take a look at several feats that have left an incredible mark on computing history.

In outer space

Zero defects during 600 days in orbit!

Two ASUS notebooks were selected by R&K, a major computers and electronics supplier to the aerospace industry, to provide astronauts with dependable computing hardware.

"ASUS notebooks never overheated," said Sergei Avdeev, one of the Russian cosmonauts. "Only notebooks with the best cooling can survive continuous operation in space, and our ASUS notebooks worked problem-free."

In the air

Helping the NRMA CareFlight Helicopter rescue unit save lives!

NRMA CareFlight uses ASUS notebooks in different fields, including aviation, medical treatment, and administration. ASUS notebooks play a critical role in improving survival rates in severe head trauma incidents. They help medical teams arrive on-site faster than ambulances, with fatalities lowered by 33%. "Our pilots are very impressed with ASUS notebooks and amazed at their durability," said Mark Lens, Community Relations Manager of CareFlight.

At the ends of the earth

Conquering Antarctica

A December 2003 expedition with acclaimed mountaineers Shi Wang and Jien Liu set out to reach the summit of Mount Vinson, the tallest peak in Antarctica at 16,000 feet, where temperatures drop below -100ºF. Wang and Liu brought ASUS S200N notebooks, which met their need perfectly, being light and compact and designed to handle the rigors of exploration. "It was great having notebooks we could count on in situations where malfunctions are unacceptable," said Shi Wang.

On the Road

Flawless performance during grueling off-road racing

ASUS notebooks performed critical tasks at the PATAGONIA 2000 race, used in hot deserts and on snowy mountains. They acted as navigation devices, excel by their built-in GPS and dynamic maps. They were also mobile communication centres, enabling email and video conferencing. "ASUS computers survived severe conditions without a single flaw," said race organizer Aviv Shweky.

On the world’s highest peak

First notebooks to scale Mount Everest

Conditions at the world’s tallest mountain may faze other notebooks, but ASUS U5/S6, W7, and U1 notebooks were chosen to accompany an expedition to the top of Mount Everest. The US even made it to the peak of a height of 8848m, with expedition leader Captain Wang YongFeng carrying it as a tribute to eco-friendly technology and making ASUS the world’s first notebooks at the top of Mount Everest.

Braving the desert

Survival of the fittest at Lop Nor

The ASUS search for incredible goes on, with the ASUS team taking ASUS Zenbook to Xinjiang’s Lop Nor dry lake in China, which has a reputation for being one of the most challenging parts of the world. Located in the Kumtag desert, the region has extreme temperature changes with high heat during the day and freezing cold at night, a nearly complete absence of moisture, and dangerous wind gusts. This barren and has been used in the past for nuclear weapons testing, and today few people live there. ASUS notebooks made it through the trek, helping capture incredible experiences and moments.

The ASUS search for incredible will be continued...
ASUS Pick-Up & Return Service
FROM YOUR DOORSTEP

Still trying to find the closest service centre? Too busy to send your notebook for service by post or courier?

ASUS provides the service you need. Beyond our 2-year global warranty, we offer a premium PICK-UP & RETURN SERVICE for customers and dealers.

For customers, this allows you to request door-to-door service, or you may just drop your ASUS notebook or tablet at your nearest retailer.

ASUS provides the service you need. Beyond our 2-year global warranty, we offer a premium PICK-UP & RETURN SERVICE for customers and dealers.

5 simple steps to apply ASUS Pick Up and Return Service.

How to apply Pick Up & Return Service?

1. Call to request Pick Up & Request Service
2. Reply email for service and your detail verification
3. Print out the docket from the email
4. Stick the docket on the Notebook or Tablet cartons
5. Wait for the courier to pick up

Information required when submitting Pick up & Return Service request:

- Dealer full company name/ end user name
- Contact person, phone number and email address
- Shipping address
- Product serial numbers
- Product description
- Symptom description

Terms and Conditions:
(1) The Pick-Up & Return service applies to ASUS Notebook and Tablet only.
(2) The Pick-Up & Return service is not available in certain warranty period and free of charge.
(3) Out-of-warranty, non-defective or customer-induced damage units are not covered by Pick-Up & Return service. In such cases, dealer or end user needs to carry out the repair.
(4) Pick-Up & Return service only applies to RMA repairs and does not apply to DOA claims.
(5) Anyian/Ownership Transfer not filling or any non-received or non-reimbursed do not make the unit be considered non-service area.
(6) Additional service charge is applicable to delivery to any island (e.g. Langkawi, Redang, Pangkor island) except Penang island.

ASUS 2 Years Global Warranty

ASUS 2 years global warranty cover everything 100%, with no hidden costs. This warranty applies equally whether you are right here at home or in any of the 57 regions and countries where ASUS products are sold.

***Only for selected notebook are covered for 1 year global warranty.

ASUS Transformer Book Family

ASUS Gaming & Multimedia Series

ASUS Zenbook Series

ASUS Performance Series

ASUS Commercial Series

ASUS Tablet & Smartphone Series

Notebook that exceed your expectations

ASUS Transformer Book Family

ASUS notebooks offer premium-class multitouch touchscreen technology. Discover a new computing experience with Windows 8 and ASUS premium-class design. The world is at your fingertips.

ASUS Gaming & Multimedia Series

The fastest processors and most powerful graphics, combined with striking design make extreme gaming incredibly fast for anyone who wants to game on the go.

ASUS Zenbook Series

Ultra slim and ultra light for effortless high performance, mobility, that enhance all your computing experiences with responsive touchscreens and supremely elegant design.

ASUS Performance Series

Crystal clear visuals, fast processors, and powerful graphics deliver outstanding multimedia performance, whether you’re creating digital content or gaming.

ASUS Commercial Series

Business and organizational users know the importance of quality and productivity. ASUS Pro notebooks are strictly quality tested to much higher industry standards that even exceed the demanding MIL-STD 810G military standard.

ASUS Tablet & Smartphone Series

The latest mobile innovation has brought customers products such as Padfone, which combines tablet and smartphone. ASUS tablets are brought customers products such as Padfone, which combines tablet and smartphone.

ASUS Transformer Book Flip
Laptop with 360° rotating touchscreen

ASUS Transformer Book Flip ships with Windows 8.1, so you can browse the web faster and utilize more powerful computing to do more wherever you are.

Powerful laptop
High-performance touchscreen laptop with discrete graphics and ergonomic keyboard

Media stand
Convenient stand for enjoying movies, videos, photos or music

Shared viewer
A quick flip into you share presentations, photos or documents interactively

Responsive tablet
Windows 8.1 tablet with an accurate and precise Full HD touchscreen

ASUS recommends Windows.

More flexibility, more imagination
At ASUS we always start with people. We put what people are thinking, feeling, and doing at the heart of our work, translating these insights into meaningful designs for inspiring experiences. ASUS Transformer Book Flip is designed to give the ultimate flexibility, with a display that can be flipped at any angle from zero to 360 degrees. Feel the joy with a full range of ASUS laptops for every need.

Power Laptop
Effortless productivity and seamless multitasking thanks to powerful, energy-efficient Core™ i7 processors plus discrete high-performance graphics. In Windows 8.1 laptop mode, you'll be able to get more done when you're on the move.

Media Stand
The world is full of living sound and every note is important. ASUS SonicMaster goes beyond just function into indulging all your senses with immersive experiences. Enjoy smooth, rich, and detailed sound in music, movies, voice, and even gaming. SonicMaster combines design, superior hardware, and optimized software for stunning professional-grade audio.

Shared Viewer
Enjoy all the convenience of a tablet with the power and connectivity of a laptop. Flip switches seamlessly into a responsive HD tablet, with total fingertip control thanks to the precise 10-point multi-touch screen. Browse the web, check your email or just relax and play your favorite games!

Responsive tablet
ASUS takes great pride in perfecting the user experience, and the multi-touch display in Transformer Book Flip will enhance your Windows 8.1 experience whatever screen angle you choose. Exclusive ASUS touch sensor technology means that the display is more accurate and responsive than conventional touch-screens, too!

ASUS G SERIES
UNLEASHED POWER TO REDEFINE GAMING

ASUS G Series ships with Windows 8.1, so you can browse the web faster and utilize more powerful computing to do more wherever you are.

Gaming-grade power
Superb performance from 4th-gen Intel® Core™ i7 processor and NVIDIA® GTX 860M graphics!

Armed and ready
Stylish gaming with an adjustable-backlight keyboard and gorgeous spun-finish touchpad!

Wide detail in Full HD
Remarkable detail and 178-degree viewing on a 15.6-inch Full HD IPS panel!

Bass that hits back
Thumping deep-bass audio from SonicMaster and an exclusive external subwoofer!

ASUS recommends Windows.

Power to perform
ASUS G series is buzzing with newest and very best processor and graphics technologies. Exceptionally powerful 4th generation Intel® Core™ i7 processors team up with dedicated graphics from NVIDIA® - all the way up to GeForce® GTX 860M series graphics. With such awesome power at its disposal, G series delivers an unrivalled notebook-gaming experience. With no need to compromise you can crank up resolutions to the max and watch the graphics fly. Be dazzled by amazing frame-rates that never stutter from a notebook that doesn’t lose its cool in the heat of the battle. Cool, quiet and fast as fast can be - ASUS G series is notebook gaming as you’ve never before experienced.

ROG audio total solution
Where many gaming notebooks treat sound as an afterthought, ASUS G series puts it front and center. It features exclusive ASUS SonicMaster and ROG AudioWizard, designed by a dedicated team of audio engineers as a careful balance of hardware and software towards the best notebook sound. Sure, with G series your games look their best, but they also sound fantastic. Every effect and note comes out with increased power, range, and clarity. This is more than enjoyment: as any gamer knows, sound is critical to success play, giving you the edge with sonic awareness and positioning.

Stable performance with a silent cooling system
The G Series has been designed to withstand marathon gaming sessions, with a powerful thermal solution that ensures system stability in the heat of the action. It’s silent too, so it won’t distract you from your game.

ASUS A·SERIES

Expressive colors. Exceptional performance.

ASUS A Series ships with Windows 8.1, so you can browse the web faster and utilize more powerful computing to do more wherever you are.

**Incredible Beauty**
Sophisticated texture finish in several colors

**Incredible Performance**
True 2-second Instant on and up to Intel® Core™ i7 processors

**Incredible Sound**
SonicMaster technology for clear and powerful sound experience

**A classic, timeless design**
Reliable and comfortable to use, the new ASUS A Series notebook has a spun-circle finish for a classy, elegant feel. Its slim profile is 5% thinner than the previous A Series notebook, and still houses a large touchpad with intuitive multi-point Smart Gesture input, multiple USB 3.0 ports for fast data transfer and IceCool technology to keep your palm rests cool.

**Providing a smooth computing experience**
Value-packed with all the essentials, the new ASUS A Series renews your daily computing experience. Whether you are using it for work or for fun, this is an ideal machine for both productive computing and entertainment. It features up to an Intel® Core™ processor and graphics card. Instant on that resumes your computer from sleep mode in 2 seconds and USB 3.0 for 10 times faster data transfer speed. New ASUS A Series gives you everything you need for a truly satisfying multitask computing and multimedia experience.

**A notebook with smartphone-like accessibility**
The A450 features the exclusive ASUS Super Hybrid Engine II with instant on to provide you with smartphone-like levels of accessibility. It can resume from sleep mode in just two seconds and has up to 14 days of standby time. It automatically saves your data when battery levels drop below 5%, so your documents are kept safe and secure.

**Precise, crystal clear audio to complete the cinematic experience**
On most notebooks, all sound frequencies originate from small onboard speakers. The resulting audio comes from a single source and lacks distinctiveness. Like other notebooks in the ASUS range, the new ASUS A Series comes equipped with SonicMaster technology and ASUS AudioWizard to bring you high fidelity audio. Experience omnidirectional sound and hear each individual instrument’s nuances with the new ASUS A Series.

ASUS guarantees all notebooks with free repairs and component replacement as needed within the 2-years warranty period. In addition, ASUS international warranties make sure your investment is protected even if you relocate, with support centers in 55 countries. This is the ASUS pledge of quality and customer satisfaction, wherever you might be.

Worldwide services

Starting with people and understanding what users think, feel, and do is how we design ASUSPRO Series notebooks. We believe business should be more mobile, powerful, easier, and comfortable to use, so ASUSPRO BU401 combines a variety of great functions into one Ultrabook™ at just 1.64kg. It measures a slim 21mm, is highly durable, and reinforced with tough carbon fiber construction, a metal frame structure, and anti-shock hard drives that secure data against damage. It features a true-comfort keyboard, adding to the many reasons ASUSPRO is best for business. ASUSPRO BU401 has secured awards from Design Red Dot (Germany), Good Design (Japan), and an Excellence Award (Taiwan).

Eco-friendly

ASUS has been leading the industry in eco-friendly processes, minimizing its environmental impact with an initiative dubbed Green ASUS. This covers green design, green manufacturing, and green procurement. The ASUSPRO Series succeeds in combining lower total cost of ownership with the highest environmental standards, certified EPEAT, Energy Star, and RoHS-compliant.

Long lifecycle

The ASUSPRO Series uses long-life batteries as a standard feature, lasting three times longer than traditional li-ion batteries. Power packs are eco-friendly and money-saving due to a lower replace rate, plus ASUS Xpress Charge technology can even charge your ASUSPRO Series notebook to 90% in just 90 minutes.

ASUS recommends Windows.

ASUSPRO ADVANCED
An Ultrabook™ for your business

ASUSPRO P ESSENTIAL
Budget-friendly and ultra-reliable notebook for SMBs

TOP 8 REASON TO BUY ASUSPRO

1 Legendary history-making
Flawless performance even in extreme conditions

2 Worldwide services
ASUS guarantees all notebooks with free repairs and component replacement as needed within the 2-years warranty period. In addition, ASUS international warranties make sure your investment is protected even if you relocate, with support centers in 55 countries. This is the ASUS pledge of quality and customer satisfaction, wherever you might be.

3 Extra reliable
Stricter testing proven to exceed the US MIL-STD 810G military standard

Business and organizational users demand greater reliability, so ASUSPRO BU401 notebooks go beyond the demanding US MIL-STD 810G military standard. They prove very durable in shock tests, drop tests, hinge cycle tests, and panel pressure testing, so your business benefits from steadfast reliability even in extreme conditions.

4 Designed professional
World-class award-winning design

Starting with people and understanding what users think, feel, and do is how we design ASUSPRO Series notebooks. We believe business should be more mobile, powerful, easier, and comfortable to use, so ASUSPRO BU401 combines a variety of great functions into one Ultrabook™ at just 1.64kg. It measures a slim 21mm, is highly durable, and reinforced with tough carbon fiber construction, a metal frame structure, and anti-shock hard drives that secure data against damage. It features a true-comfort keyboard, adding to the many reasons ASUSPRO is best for business. ASUSPRO BU401 has secured awards from Design Red Dot (Germany), Good Design (Japan), and an Excellence Award (Taiwan).

5 Eco-friendly
Leading in green technology with the highest environmental standards

ASUS has been leading the industry in eco-friendly processes, minimizing its environmental impact with an initiative dubbed Green ASUS. This covers green design, green manufacturing, and green procurement. The ASUSPRO Series succeeds in combining lower total cost of ownership with the highest environmental standards, certified EPEAT, Energy Star, and RoHS-compliant.

6 Long lifecycle
Good for the environment with three times the battery longevity

The ASUSPRO Series uses long-life batteries as a standard feature, lasting three times longer than traditional li-ion batteries. Power packs are eco-friendly and money-saving due to a lower replace rate, plus ASUS Xpress Charge technology can even charge your ASUSPRO Series notebook to 90% in just 90 minutes.

7 Seamless security
Complete protection through hardware and software features

Data safety is very important for businesses, so the ASUSPRO Series provides total security using multiple hardware and software layers. This includes onboard anti-shock hard drives that secure data against shocks and drops, fingerprint scanning that takes access authorization to a higher level, and smart card-based identification for logins and online transaction approval.

8 Worry-free
Trace and locate services for lost or stolen notebooks

When you lose your work notebook, a serious concern is confidential data being accessed by external parties. The ASUSPRO Series provides trace and retrieval services of lost or stolen notebooks, with each model pre-installed with Intel® Anti-Theft Technology to remotely disable access to the operating system, which means the notebook is locked and cannot be used by others. Computran® LoJack® for Laptops software is included, and can also remotely lock and delete data before it falls into the wrong hands. The LoJack® for Laptops dedicated theft recovery team then works with local law enforcement to track down and recover lost or stolen notebooks.

ASUS NOTEBOOKS, TABLETS & PHONE
THE CHOICE OF IT PROFESSIONALS

In today’s digital age, our devices such as notebooks, tablets and mobile phones store lots of sensitive personal data. That’s why IT professionals all over the world choose ASUS. They know that ASUS is synonymous with quality and reliability. Whatever you use your device for, be it watching movies, listening to music or viewing photos - ASUS is the natural choice delivering technology and style. But don’t take our word for it. Consult an IT expert before purchasing.
