RECO Classic
Full HD Car Cam

**Record the moment,
 day and night**

Excellent Night Vision with HDR

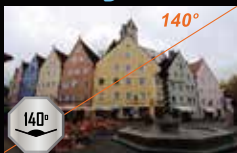

HDR (High Dynamic Range) technology ensures the DVR to catch every detail in your drive no matter it is in limited or high contrasted lighting environments.

Full HD 1080P High Resolution

The Full HD 1920x1080P in 30 frames per second high speed record pattern with the latest CMOS sensor let every moment in your drive have a perfect catch!

140 degree Wide View Angle

The 140 degree wide view angle allows the DVR to record every detail from front view with no blind spot. Vehicles coming from both right and left side can be clearly recorded.

Speed Camera Detection

The external GPS sensor enables speed camera detection, showing the speed limit information on screen and sending a warning tone to remind drivers to maintain a safe speed.

Drive Safety Enhancement

When the driving speed is above 60m/hr, the Lane Departure Warning System (LDWS) and Forward Collision Warning System (FCWS) are activated to enhance the driving safety.
