ASUS – In Search of Incredible

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We are always in search of incredible ideas and experiences and we aspire to deliver the incredible in everything we do.

ASUS is a top-three global consumer notebook vendor and maker of the world's best-selling, most award-winning motherboards. A leading enterprise in the new digital era, ASUS creates products that meet the needs of today's digital home and office, with a broad portfolio that includes motherboards, graphics cards, optical drives, displays, desktop and all-in-one PCs, notebooks, netbooks, servers, multimedia devices, wireless solutions, networking devices, tablets, smartphones and wearables. Driven by innovation and committed to quality, ASUS won 4,368 awards in 2015. The company is widely credited with revolutionising the PC industry in 2008, when it launched the Eee PC™. More than 13,600 global employees, including a world-class R&D team of 4,500 engineers, comprise ASUS. Company revenue for 2015 was approximately US$14 billion.

No. 1 Motherboard Brand in the World

ASUS has shipped more than 500 million motherboards globally since 1989. ASUS puts the best motherboards in every ASUS notebook, ensuring incredible quality and reliability.

No.1 in Quality and Service

ASUS ranked first in quality and innovation in The Wall Street Journal Asia survey in 2009.

Ranked Among World's Most Admired Companies

In the computer industry, ASUS was named among the top 10 World's Most Admired Companies by Fortune Magazine in 2015.

4,368 Awards in 2015

In 2015, ASUS won a total of 4,368 awards from leading organisations and media groups, worldwide.

Ranked Among Top Global IT Company

ASUS was recognised among the top 10 global IT brandsin the Consumer Electronics category of The World's Most Innovative Companies 2010, compiled by Fast Company, a leading progressive business media brand.

ASUS Green Technology

ASUS was the first global IT company in the world to achieve EU Flower Eco certification. It was also firstto receive EuP certification for notebook PCs. Today, ASUS continues to build on a long-standing tradition of developing the world's most reliable and advanced green technologies.

ASUS Won 4,368 Awards in 2015

ASUS is dedicated to pursuing the highest level of innovation and quality in everything we do. We aspire to become one of the world's most admired leading enterprises in the new digital era. Our ongoing efforts continue to garner worldwide recognition in every aspect of product development, including design, innovation, technology, quality, service, and energy-efficiency. In 2015, ASUS earned 4,368 awards from some of the most prestigious international organisations and media groups around the world. Each award is a testament to our relentless quest and commitment to creating technology that is designed for everyone to joy.

iF Design Awards

ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

Good Design Awards 2014

ASUS products have won a total of 17 Good Design Awards, one of the four major design awards recognised by the International Design Alliance, demonstrating ASUS' outstanding product design quality and engineering.

Innovation International CES Awards 2015

Seven ASUS products have been awarded for the CES 2015 Innovations Design and Engineering Awards honoree program. The awards have become a hallmark for the best-designed products in consumer technology and our brand promise of Inspiring Innovation • Persistent Perfection has resulted in such wide recognition for our products.

SINGAPORE JULY 2016 AUGUSTMAN

The Zen AiO Pro has a gorgeous 4K display option, plenty of processing power for your heavy-duty hard work and discrete graphics in case you want to indulge in a bit of gaming.

SINGAPORE MAY 2016 STUFF TV

A top affordable tablet for those who fancy a nice display but aren't willing to pay through the nose for it.

SINGAPORE MAY 2016 ASIA ONE

The ZenBook UX305 was nominated for one of the AsiaOne People's Choice Award 2016 for the best laptop.

SINGAPORE MAY 2016 CLEO

The annual CLEO Guy Stuff Awards 2016, with ZenBook UX305 being awarded the most stylish laptop with its ultra-thin profile and stylish features.

SINGAPORE MAY 2016 HARDWARE ZONE

Also note that the ZenFone 2 Laser is available in a 5-inch variant - the ZE500KL - for just S$239 and it shares all of the attributes of the 5.5-inch reviewed version, making it a more value for money counterpart if price is a strong consideration. Furthermore, its smaller screen size would allow it to have a higher pixel density.

SINGAPORE APRIL 2016 STUFF TV

The ASUS Zen AiO Pro Z240IC is an excellent all-in-one desktop PC that not only looks sleek, but also holds the performance you need for your day-to-day application. Whether it's family movie time or solo gaming, this desktop system gets the job done without much complaints.

SINGAPORE APRIL 2016 HARDWARE ZONE

The ZenFone Zoom on the other hand has an actual optical zoom lens, the same kind you would find in a DSLR or compact digital camera. Zoom lens are far more complicated and bulkier than their fixed focal length counterparts, which is why we haven't seen one in a slim smartphone until now.

SINGAPORE FEB 2016 CNET

ASUS' ZenFone Zoom breaks new ground with a built-in optical zoom camera. The Asus ZenFone Zoom puts cool new camera tech to work.

SINGAPORE FEB 2016 STRAITS TIMES DIGITAL

The ZenBook UX305 was awarded the best Ultrabook by their readers in the ST Digital Awards 2016. Their readers chose the ASUS ZenBook UX305 as their favourite likely because of its excellent value, which is probably matched only by the HP Envy 13.

SINGAPORE FEB 2016 STRAITS TIMES DIGITAL

The ROG G752 was awarded the best gaming laptop in the ST Digital Awards 2016. The ASUS ROG G752 impressed us the most with its snappy orange highlights standing out from its rivals. More importantly, the G752 was a very reasonably priced for its high-end machine.

SINGAPORE
FEB 2016
HARDWARE ZONE

The ASUS ZenFone 2 was awarded for the best mainstream smartphone. The ZenFone 2's Intel Atom Z3560 quad-core processor easily beat the rest of the field, with performance on par with Qualcomm's Snapdragon 801. We also loved its beautiful 5.5-inch Full HD display, and great rear and front camera. While the phone is entirely plastic, its brushed metallic finish is quite convincing, and we liked its ergonomic curved shape, rear volume buttons and quick launch features. At this price, the ZenFone 2 ZE551ML can't be beaten.

SINGAPORE
FEB 2016
HARDWARE ZONE

ASUS was awarded for the Best 2-in-1 Notebook Brand by the Hardware Zone readers. A new category we created last year to reflect the latest trend, the inaugural winner was ASUS. This year, our readers have once again voted for ASUS (30%), maker of fine machines like the Transformer Book T300 Chi, Transformer Book Flip TP200, and T100HA.

SINGAPORE
JAN 2016
CNET

The ASUS G752 is a little slimmer than its predecessor, and its new design lightens up the previous black slab look. Performance is excellent, and a backlit keyboard with macro keys makes for comfortable gaming.

SINGAPORE
JAN 2016
HARDWARE ZONE

It's a 17-inch gaming notebook that features the latest Skylake processor and a GeForce GTX 980 GPU with 8GB of framebuffer. That wasn't a typo, the ROG GX700 is in fact one of the few gaming notebooks running a desktop-class GeForce GTX 980 GPU. But more than that, its pièce de résistance is its liquid-cooling dock.

SINGAPORE
DEC 2015
STRAITS TIMES DIGITAL

ASUS gets almost everything right with the new Republic of Gamers (ROG) G752 gaming laptop. A powerful gaming laptop that runs quieter than expected. The price is very competitive, too.

SINGAPORE
DEC 2015
HARDWARE ZONE

And as befits a premium gaming notebook from ASUS' much vaunted ROG collection, the ROG G752's chassis is constructed mainly out of aluminum. It feels sturdy and well put together. However, the ROG G752 is no ballerina. It measures 51mm thick at its bulkiest point and tips the scales at a hefty 4.4kg. Though the thickness is pretty alarming, the weight, however, is pretty standard fare for most 17-inch gaming machines, so there's no surprises there.

SINGAPORE
NOV 2015
HARDWARE ZONE

Finally, knocking S$70 off the original price is pretty much unheard of, and its new price of S$229 is fantastic value, especially when smartwatches seem to be getting more and more expensive. If you've been looking for a safe entry into the world of smartwatches without having to spend too much, you can't go wrong with the ZenWatch 2.

SINGAPORE
OCT 2015
CLEO MAGAZINE

ASUS was awarded for having the Best Tech for Style Savvy Girls in the CLEO Fashion awards 2015. With the ZenBook range that combines performance and beauty, it would be the best choice for those style-conscious looking for a laptop.

SINGAPORE
OCT 2015
CNET

The ASUS ZenFone Selfie is a moderately priced phone that lets you take good front-facing shots in 13-megapixel high resolution. Battery life is great as well.

SINGAPORE
AUG 2015
STRAITS TIMES DIGITAL

While the ZenBook may not wow with innovative features, it does everything well. More importantly, it is priced competitively and great value for money. If you don't need a touchscreen, the ZenBook is one of the best ultrabooks for its price.

SINGAPORE
AUG 2015
HARDWARE ZONE

One of the key highlights of the ASUS ROG G501 is its svelte design and slim chassis. The chassis is mostly aluminum and exudes a premium look and feel. It measures just 20.6mm thick and weighs only 2kg, which makes about as thick and lighter than the GX500 unit that we saw at Computex last year. The aluminum is black and ASUS has employed different finishings on the panels to give the ROG G501 more visual pizzazz. The external panels are all brushed, whereas the internal panels such as the palm rests have a matte finish.

SINGAPORE
AUG 2015
DIGITAL LIFE

Battery life was excellent, lasting 7hr 6min while playing a video. This is about 30 minutes longer than on the Dell XPS 13. But I expect the MacBook Air to outlast the ZenBook, given that the 2013 MacBook Air clocked nine hours. While the ZenBook may not wow with innovative features, it does everything well. More importantly, it is priced competitively and great value for money. If you don't need a touchscreen, the ZenBook is one of the best ultrabooks for its price.

SINGAPORE
JULY 2015
STUFF MAGAZINE

Awesome performance, a good screen and highly effective fans that keep the ASUS G751 pretty quiet under pressure make this one of the best gaming laptops around.

SINGAPORE
JUNE 2015
HARDWARE ZONE

The winner of our shootout is the ASUS ZenFone 2, not only for its overall excellent benchmark scores, but also for its ergonomic, premium design and top notch Full HD display. If you're in the market for something a little more powerful, you can opt for the $429 4GB ZenFone 2, which also has a slightly faster processor.

SINGAPORE
JUNE 2015
STUFF TV

The ASUS G751 is for the loud and proud PC gamer. Awesome performance, a good screen and highly effective fans that keep the ASUS G751 pretty quiet under pressure make this one of the best gaming laptops around.

SINGAPORE
MAY 2015
HARDWARE ZONE

Excellent design, small and attractive, quiet and powerful processing, customised lighting control, pre-built with warranty and support, and it comes with everything but a monitor. For a slightly higher price tag of S$2,699, the ASUS ROG G20 offers you the chance to do away with the hassles of installation and troubleshooting, and the peace of mind knowing that you can simply take it to the service center if you run into any problems.

SINGAPORE
MAY 2015
CNET

But interestingly, the $299 price for the 4GB does put it in an interesting position, since the focus recently has been on either great low-value phones and high-end handsets. The ZenFone 2 could still be attractive for those who want near high-end performance without being tied to a contract.

SINGAPORE
MAY 2015
E27

It is not quite the best of both worlds but in the ZenFone 2, ASUS has achieved an impressive mix of performance and value. This is not a phone for the technologist or the artist; this is a phone for the average joe who just wants a phone that works.

SINGAPORE
APRIL 2015
STUFF TV

Awesome performance, a good screen and highly effective fans that keep the ASUS G751 pretty quiet under pressure make this one of the best gaming laptops around.

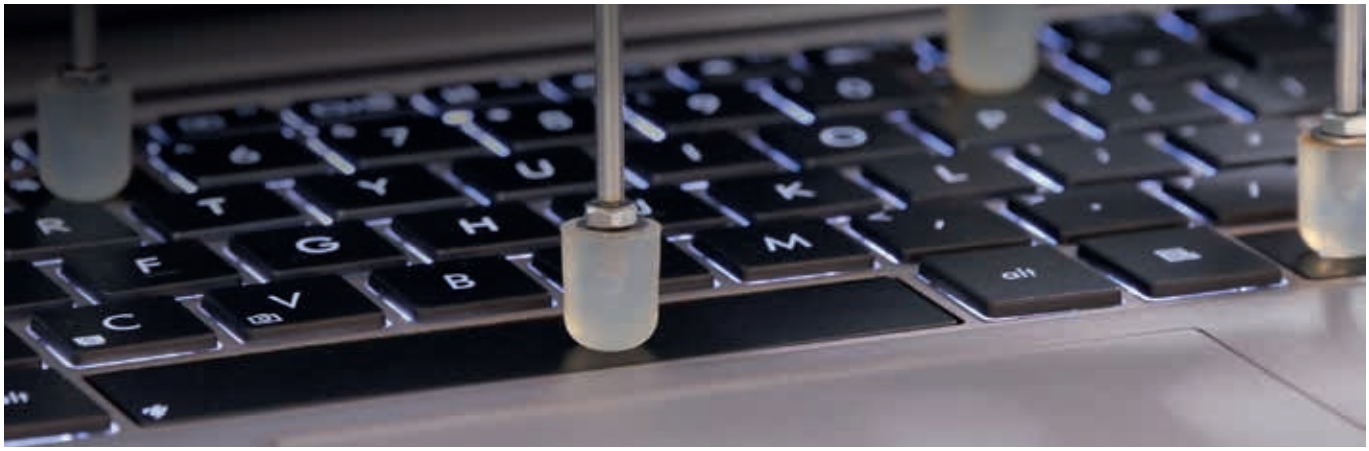

SINGAPORE
APRIL 2015
HARDWARE ZONE

ASUS has hit it out of the park with the ZenBook UX305. It's as slim and good-looking as a 13-inch Apple MacBook Air, possesses as good a display as any high-end laptop and even sports a good array of connections. It aces virtually every other aspect of its design, it's sure to be remembered as one of 2015's best laptops.

Top Notch Quality Notebooks with Rigorous Tests Assurance

Durability is a hallmark of ASUS design. With each project, ASUS engineers strive to create devices that exceed expectations in any environment—be it commuting to work or travelling in Arctic. To achieve the goal of incredible performance and reliability, ASUS notebooks undergo a series of rigorous tests.

Keyboard Test

Specially designed ASUS mechanisms perform tests to ensure durability and responsiveness over millions of keystrokes, with special emphasis on keys that are most often used.

Abrasion Resistance Test

Rear and front panels are exposed to friction tests to ensure that surfaces can resist scrapes or scratches.

Noise and Audio Test

Designed with high-quality component seals for quiet cooling, notebooks undergo fan, hard drive, and power source noise tests, as well as an audio tuning process—all to ensure the quietest performance possible.

Panel Resistance Test

Panel resistance tests ensure that even the LCD display screen—the most vulnerable surface of any notebook—can endure unexpected bumps or pressure.

Enhanced Hinge Test

As a known point of vulnerability in any notebook, hinges undergo vigorous testing, consisting of tens of thousands of open-close cycles, to help ensure strength for the life of the device.

Vibration Test

Extensive vibration testing ensures that the notebook chassis assembly and all internal components remain securely attached and maintain integrity under even the most extreme travel conditions.

Shock Test

Tests simulating incidents that may occur during shipping help ensure that notebooks can withstand unexpected impacts.

Twist Test

Twist tests ensure that the notebook chassis retains structural integrity when uneven pressure or weight is applied.

Acceleration Test

Highly Accelerated Life Tests (HALT) simulate long-term effects of notebook use, allowing engineers to identify any possible design or component vulnerabilities.

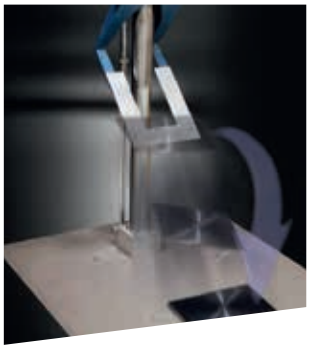

Port Test

Port tests ensure that contacts and plugs provide durable, smooth connections and data transfer—even in environments where ports are frequently used for connecting and disconnecting devices.

Extreme Environment Test

Extreme environment tests ensure consistent performance in any condition, including extremely high or low temperatures and humidity.

Drop Test

Drop tests remove ensure that the chassis and internal components of each ASUS notebook are resistant to damage from unexpected drops.

5 Reasons to Love ASUS

In recent years, ASUS has developed a Customer Happiness 2.0 program that seeks to achieve unparalleled customer satisfaction. The program specifies five exclusive feature categories to be included with every ASUS notebook.

Authentic Beauty	Incredible Sound	Intuitive Touch	Quick Response	Ubiquitous Access

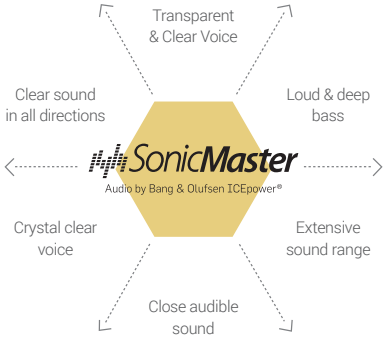

1. Authentic Beauty

ASUS Splendid technology ensures accurate, vivid, life-like colour reproduction. Special Vivid and Manual modes allow users to add extra vibrancy to images, or to adjust colour settings manually to suit individual preferences.

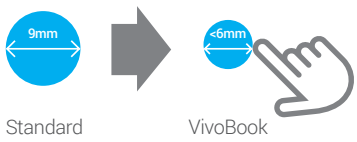

2. Incredible Sound

ASUS SonicMaster, an exclusive ASUS audio technology, combines specially designed hardware and software developed by the ASUS Golden Ear team. SonicMaster delivers incredible sound quality, with deep, rich bass and crystal-clear vocals—even at high volume levels. Integrated Audio Wizard software provides five one-click preset modes optimised for any kind of audio source, as well as manual control over advanced settings.

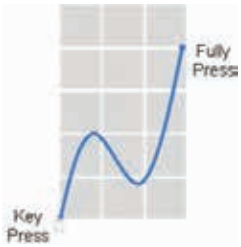

3. Intuitive Touch

Responsive multi-touch displays use touch sensors that are smaller than the industry standard, providing smooth, incredibly precise interaction.

Ergonomic keyboards are carefully designed with optimum key travel and pressure to ensure comfort and accuracy.

Larger touch pads enable easier and more intuitive navigation and control.

4. Quick Response

2-Second Instant On

ASUS laptops are designed to wake almost instantly from sleep mode, providing a smartphone-like experience.

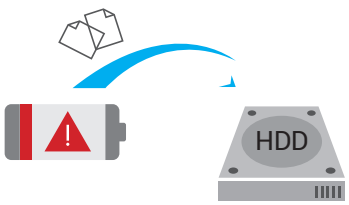

2 Weeks Standby

Super Hybrid Engine II technology allows ASUS notebooks to remain in standby for up to two weeks, which helps to avoid work or data loss.

Automatic Backup

ASUS notebooks automatically save data when battery capacity reaches less than five percent.

5. Ubiquitous Access

ASUS WebStorage offers the freedom and power to access and share important files and data with ease, while also allowing for universal file synchronisation from any device.

ASUS PCs are Powered by Intel® Core™ Processors.

Incredible ASUS Stories

ASUS devices have proven themselves in some of the harshest environments across the planet—and beyond! Below are just a few incredible stories highlighting the reliability of ASUS notebooks.

Outperforming Competitors Through 600 Days In Outer Space

R & K, a major supplier of computers and electronic equipment for aeronautical missions to outer space, provided MIR Space Station astronauts with two ASUS notebooks for their 600-day stint in space.

"The ASUS notebooks never overheated like some of the devices made by other companies," said Russian cosmonaut Sergei Avdeev. "Thermal flow in space and on Earth is completely different. Only notebooks with the best heat dissipation solutions can survive continuous operation. We turned the ASUS notebooks on in the morning and left them on all day and never experienced any problems."

Helping Emergency Responders Quickly Get The Information They Need

NRMA CareFlight, an emergency medical and rescue helicopter unit operating in New South Wales, Australia, uses ASUS notebooks in several of its departments. For example, ASUS notebooks provide navigation support for the CareFlight program designed to improve survival rates among accident victims suffering from severe head trauma. By supplying the information that helps CareFlight medical teams arrive at accident scenes faster, ASUS technology plays a direct role in significantly improving response times and timely treatment of severe head trauma victims.

"All of our pilots have been very impressed with the ASUS M5 laptops and amazed at their ability to withstand the vibration of the aircraft," explains Mark Lees, CareFlight Community Relations Manager. "We are now ready to install ASUS M5 laptops in all of our aircraft and link them to the onboard navigation computers."

First To Reach The Tallest Peak In Antarctica

On December 16, 2003, acclaimed mountaineers Shi Wang and Jian Liu embarked on an expedition to the summit of Mount Vinson—the tallest peak in Antarctica—where temperatures are known to drop below minus 100 degrees Fahrenheit. The device they chose to take with them was an ASUS S200N notebook.

"The ASUS S200N worked without a glitch under the extreme conditions and severe weather," said Wang. "It was nice to have a notebook I could count on in situations where dependability is critical."

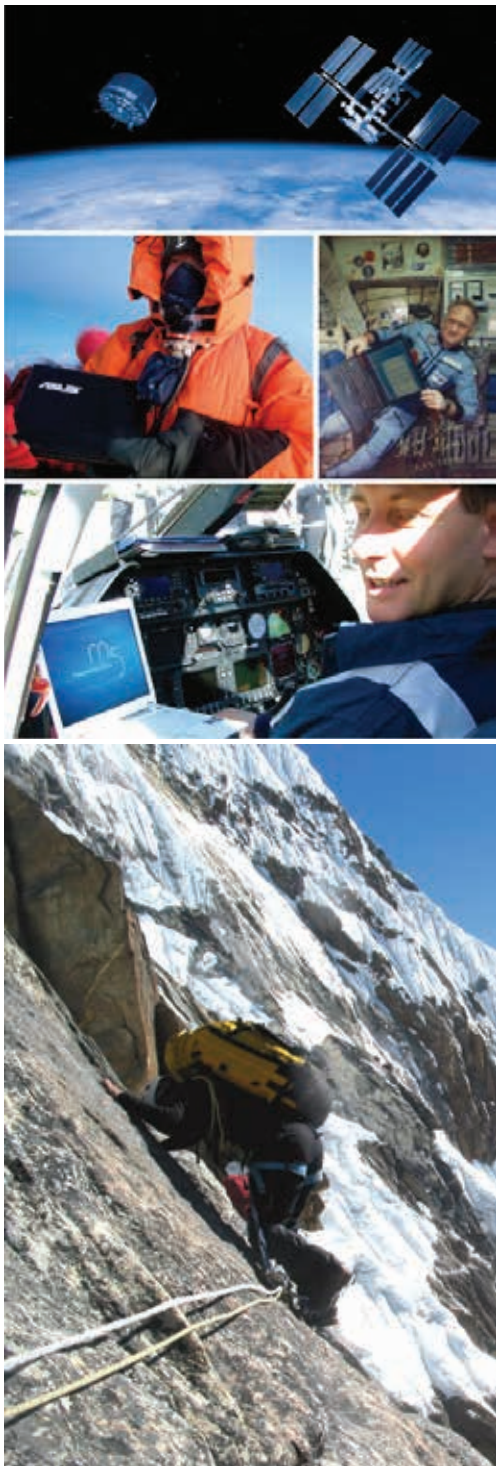

First To Reach The Top Of Mount Everest

For a Mount Everest expedition, a mountaineering team selected a series of ASUS notebooks—the ASUS U5, ASUS S6, ASUS W7 and ASUS U1—as their devices of choice. At the base camp elevation of 5,000m above sea level, other notebooks failed to boot up, due to extremely low ambient temperature; however, the ASUS notebooks functioned without incident. Expedition team leader, Captain Wang Yongfong, took an ASUS U5 notebook with him to the peak: At 8,848m above sea level, an ASUS notebook became the first in the world to reach the top of Mount Everest.

Tough Enough For A Rally Race

Traversing scorching deserts and snow-covered mountains during the Patagonia 2000 race, ASUS notebooks performed admirably. The integrated GPS functionality of the ASUS notebooks provided reliable navigation throughout the journey, and the notebooks also provided key communication support, including video conferencing.

"Each ASUS computer survived even the most severe conditions of this strenuous voyage, without a single flaw," said race organiser Aviv Shweky.

ASUS 2 Years International Warranty*

ASUS guarantees you with no repair and component charges within your 2 years warranty period for notebooks. For tablets, 1 year international or local warranty is offered depending on the models. USB 3.0

SonicMaster

Ultra-Fast Intel® Core™ Processors

With up to 4GB RAM and the latest 6th generation up to Intel® Core™ processors, the ZenBook UX305 breezes through any task, no matter how demanding. And thanks to the high-speed all-flash storage — up to a 512GB SSD that's six times faster than a conventional hard disk. The ZenBook UX305 will never keep you waiting.

WiFi Speed Unleashed

Fully compliant with the all-new 802.11ac WiFi standard, the ZenBook UX305's 867MBit/s wireless speed is up to 3X faster than the previous 802.11n specifications - no more compromise between roaming freedom and wireless speed.

Your Slim, Featherweight Powerhouse

The ZenBook UX305 weighs a mere 1.2kg, and is just 1.2cm thin. It is quite simply the thinnest and lightest laptop with a 13.3-inch QHD+ display.

[1.2kg / 1.2cm thin]

Work or Play in Total Silence

The ZenBook UX305 is not merely quiet - it is as quiet as silent. The smart, fanless design dissipates heat with natural airflow alone, saving power, improving performance and producing absolutely no noise.

360° of Freedom & Versatility

The ZenBook Flip combines the elegant sophistication of ZenBook with the convenience and versatility of a 360°-rotatable display. This ultra-thin, ultra-light convertible is a stylish laptop, a handy tablet, or anything in between — and it is designed to be with you everywhere, all the time. Its Intel® Core™ processor allows you sail through all your everyday computing with ease, while its amazing battery lasts up to 12 hours# between charges!

Slim, Stylish and Sophisticated

The ZenBook Flip is a timelessly elegant masterpiece, exquisitely crafted from solid aluminum. The chassis is forged from a single block of metal, carefully honed until it's a mere 13.9mm thin, and weighing just 1.3kg to make it effortlessly portable. The spun-metal finish, with its iconic Zen-inspired pattern of concentric circles, is anodised in an exclusive new Icicle Gold colour to match any style.

Built for All-Day People

The ZenBook Flip is built for on-the-go lifestyles, with a power-efficient Intel® Core™ processor, a high-capacity lithium-polymer battery that can last for up to 12 hours# between charges. So even on that long intercontinental flight, the ZenBook Flip can go the distance with ease.

ASUS **VivoBook** K401 / K501

Stay Cool with Metallic Chic

Full HD Display | Ultra Thin & Light Design | Smart Gesture | Powered with DDR4 RAM | High Definition Multimedia Interface | USB 3.0 | SonicMaster

Thin and Light Design

ASUS K Series packs all the features of notebook into a lightweight, thin design. With a thickness of just 21mm and weighing less than 2kg, this full-featured notebook combines exceptional performance with high mobility. And when you're out and about, the K Series' well-rounded edges and sleek, minimalist lines set it apart from other mundane notebooks in the market.

Premium Brushed Metal Finish and Tactile surfaces

The K Series turns heads with its simple minimalist lines and a premium brushed metal finish, and is equally ideal for use at home or in the workplace. If you look a little closer, you'll notice exquisite touches like sand-blasted surfaces around the keyboard, a spun-finished power button, and diamond-cut detailing around the touch pad.

Protect Your Eyes with ASUS Eye Care

Most LED panels emit blue light - the main cause of macular degeneration and retinal problems. ASUS Splendid Eye Care mode effectively reduces blue light levels to ensure the right settings for reading, and protecting you from potential eye fatigue and injuries.

Performance You Can Trust

The ASUS G11 is designed for casual gamers who want a high performance gaming platform that does not break the bank. You will be in awe of its futuristic outer space-inspired design with Mayan-inspired elements. It has numerous LEDs spread across four areas of the chassis, including a Centrepiece with customisable light effects that can showcase up to 8 million colours – so you can adjust the ambient lighting to suit the game you're currently playing.

It even features the exclusive Aegis II performance monitoring app to enhance your gaming experience. GameAlive allows you to record gameplay, edit them, and then show them off to friends on social media. There's even SonicMaster-optimised gaming audio to completely immerse you in the game.

The Art of Performance in Stunning Detail

4K ULTRA HD 4K/UHD Display | Touch Screen | IPS Display 178 Degree Wide Viewing Angel | Diamond Cut | Type-C USB 3.1 Type-C | Intel® Realsense™ 3D Camera | SonicMaster Premium | WiFi 802.11ac

A True Modern Masterpiece

To achieve the perfect combination of strength and slimness, the Zen AiO Pro has a seamless unibody construction, forged from high-density aluminum extrusions. Even the one-piece stand has no seams or joints, making it incredibly strong and stable. To add beauty to strength, the back of Zen AiO Pro has a delicate brushed-metal finish that takes craftsmen 17 steps to complete. True passion, true dedication.

Best-in-Class Performance with Gaming-Grade Graphics

The Zen AiO Pro has incredible performance to match its incredible looks. Inside the sleek exterior you'll find up to the latest Intel® Core™ i7 processors, the latest DDR4 memory, up to the latest ultra-fast PCIe® Gen3 x4 SSD storage, the gaming-grade graphics, the latest connectivity and more, all perfectly matched for silky-smooth responsiveness.

ASUSPRO P2430

Productive and Secure Yet Budget-Friendly for SMBs

Get Windows 10 free^^.

Ultra Portable

GPU Stunning Display

LED-Backlit Anti-Glare Panel

Uncompromised Security

Supreme Performance

Style and Comfort

The P series notebooks have a professional look with brushed-hairline texture and scratch-resistant coating LCD. They are ergonomically-designed and feature a seamless one-piece Chiclet keyboard with precise key alignment for ultimate comfort. The anti-glare display has a matte screen surface that prevents unwanted reflections and helps to reduce eye fatigue.

Increased Productivity With Comfortable Keyboard and Dedicated Numeric Keypad

The ASUSPRO P series uses a one-piece build to create a professional yet subtle look. The simplicity of the design extends to the underside with no unnecessary clutter. A premium look and feel is achieved by the use of the brushed-hairline aluminium texture.

Work Efficiently

The ASUSPRO P2430 notebooks are extremely productive. Each one comes with a replaceable battery for extended computing or maintenance reasons. It also supports four USB ports – three USB 3.0 and one USB 2.0.

Anti-Glare Display For Comfortable Viewing

The matte screen surface used in ASUSPRO notebooks prevents unwanted reflections thus reducing eye fatigue. It also prevents unsightly fingerprint smudges from spoiling presentations. Ergonomically-angled and textured palm rest areas provide a comfortable and solid feel for optimum productivity.
