ROG ACCIDENTAL DAMAGE PROTECTION PLAN

Priority service and support from the people who know your ROG products

When you purchase ROG laptops, you will enjoy an exclusive and personalised after-sales service and support from our ROG Experts. Valid only within the first year of product ownership starting from your purchase date. There is a maximum limit of only one (1) claim per registered serial number during the first year of product ownership, subject to verification by ASUS.

Speak to our ASUS Specialists at the ASUS Brand Stores or authorised retailers near you for more information or contact **+65 6588 1723** for more enquiries regarding your ROG laptops or desktops*.

Exclusive Accidental Damage Protection (ADP) plan**

Priority queue for qualified ROG laptops and desktops* at ASUS Singapore Service Centre at Tai Seng

Dedicated hotline for qualified ROG laptops and desktops*

Frequently Asked Questions (FAQs)

What is ROG Accidental Damage Protection (ADP)?

It is a fact – accidents happen to all of us. Our ADP plan was created to protect you against damages from accidents such as liquid spills, electrical surges and drops. Only applicable to selected ROG laptops (*subject to verification by ASUS*), and valid only within the first year of product ownership starting from your purchase date.

What kind of accidental damages are NOT covered?

The ROG ADP does NOT apply to the following: scratches and dents, incorrect or inadequate customer installation, lost or stolen products, intentional damage, recovery or transfer of stored data to the product, requests for miscellaneous cables or accessories and damages caused by natural disasters.

What is the list of products that are eligible for ROG ADP plan?

This protection plan applies only to selected ROG laptops from ASUS Brand Stores and

authorised retailers. Products must be purchased in BRAND NEW factory sealed condition. Refurbished or open box devices, units sold and purchased outside of Singapore and purchases from non-authorised Singapore retailers are not entitled for this program.

How many claims can I file for accidental damage?

There is a maximum limit of only one (1) claim per registered serial number during the first year of product ownership, starting from your purchase date. Serial number validation is performed by ASUS Service Centre or Call Centre.

How do I request for a RMA or On-Site Service for my ROG product?

You can call the ROG Service Hotline at **+65 6588 1723** to request for a pick-up of your ROG laptop or on-site service of your ROG desktop (*on-site service is not applicable to ROG laptops*).

ROG DEDICATED HOTLINE: +65 6588 1723

Images shown are for illustration purposes only and may differ slightly from actual product. **ROG ADP is available for BRAND NEW purchases of ROG laptops and are eligible for the ADP plan upon purchase from 2 Oct onwards. All FX laptop series, refurbished and/or open box of any qualified ROG products do not qualify for ADP plan. Please refer to any ASUS authorised retailer for more details. Exclusions may apply, and all claims are subject to verification and confirmation by ASUS. End users will be responsible for the one-way shipping fee to a designated ASUS servicing facility and ASUS will cover the returning shipping fee to your originating address within Singapore only. *Priority queue and dedicated hotline services apply to all ROG laptops and desktops except ROG GR desktop series, G11 desktop series, M80 desktop series, FX laptop series, refurbished and/or open box of any qualified ROG products as well as ROG products purchased from non-authorised ASUS retailers or out of Singapore.

ASUS 2 Years International Warranty*

ASUS guarantees you with no repair and component charges within your 2 years warranty period for laptops. ASUS international warranty makes sure that you are protected even if you are stationed abroad, with our centres established across 55 countries.

This is ASUS' commitment to deliver quality and customer satisfaction to you, wherever you might be.

No. 1 Consumer Laptop Brand in APAC

In 2015, ASUS continued to exhibit exponential growth in the consumer laptop category and was a preferred brand for consumers across Asia Pacific and Europe.

- ▶ **No.1 consumer laptop brand in Asia Pacific**
– 2016 Q2 IDC Report* (excluding China and Japan)
- ▶ **No.1 13-inch ultra-slim Windows laptop worldwide**
– 2015 GFK and NPD Report* (excluding convertible laptops)
- ▶ **Top 2 consumer laptop brand in China**
– 2016 Q2 IDC Report
- ▶ **Top 2 consumer laptop brand in Central and Eastern Europe**
– 2016 Q2 IDC Report
- ▶ **Top 2 consumer laptop brand in the world**
– 2016 Q1 IDC Report

No. 1 Motherboard Brand in the World

ASUS has shipped more than 500 million motherboards globally since 1989. ASUS puts the best motherboards in every ASUS notebook, ensuring incredible quality and reliability.

Ranked Among World's Most Admired Companies

In the computer industry, ASUS was named among the top 10 World's Most Admired Companies by Fortune Magazine in 2015.

Ranked Among Top Global IT Company

ASUS was recognised among the top 10 global IT brands in the Consumer Electronics category of The World's Most Innovative Companies 2010, compiled by Fast Company, a leading progressive business media brand.

No.1 in Quality and Service

ASUS ranked first in quality and innovation in The Wall Street Journal Asia survey in 2009.

4,385 Awards in 2016

In 2016, ASUS won a total of 4,385 awards from leading organisations and media groups, worldwide.

ASUS Green Technology

ASUS was the first global IT company in the world to achieve EU Flower Eco certification. It was also first to receive EuP certification for notebook PCs. Today, ASUS continues to build on a long-standing tradition of developing the world's most reliable and advanced green technologies.

ASUS PCs are Powered by Intel® Core™ Processors.

ASUS Won 4,385 Awards in 2016

ASUS is dedicated to pursuing the highest level of innovation and quality in everything we do. We aspire to become one of the world’s most admired leading enterprises in the new digital era. Our ongoing efforts continue to garner worldwide recognition in every aspect of product development, including design, innovation, technology, quality, service, and energy-efficiency. In 2016, ASUS earned 4,385 awards from some of the most prestigious international organisations and media groups around the world. Each award is a testament to our relentless quest and commitment to creating technology that is designed for everyone to joy.

World's Most Admired Companies
ASUS was named one of the World's Most Admired Companies by Fortune Magazine in 2015. The Fortune list is the definitive report card on corporate standing.

CES Innovation
Seven ASUS products won CES Innovation awards across six categories in 2015. Each CES award recognises the highest standards in product design and engineering.

Good Design
ASUS products won 13 Good Design awards in 2015. Each Good Design award recognises excellence in design and engineering.

iF Design
ASUS products won 10 iF Product Design awards in 2015. iF Design awards are recognised worldwide as a seal of quality, identifying products that excel in specific criteria, including design quality, degree of innovation, functionality, ergonomics and more.

Red Dot
ASUS won nine Red Dot Awards in 2015. The Red Dot Awards event is one of the largest and most widely recognised professional design competitions for design concept and prototypes. ASUS has won more than 65 Red Dot awards since 2001.

SINGAPORE MAY 2017 STRAITS TIMES DIGITAL

The B9440 feels like a 13-inch model, despite having a 14-inch screen, because of the ultra-thin bezel.

SINGAPORE MAR 2017 VR-ZONE

The G701 is a marvel of engineering and a lot of fun to use. Benefiting from the GTX 1080 and an insane amount of RAM, this portable PC will keep you gaming well into 2020. Not the cheapest laptop around, but just an all round amazing machine.

SINGAPORE MAR 2017 STRAITS TIMES DIGITAL

The ASUS VivoPC X M80 strikes a fine balance between performance and price.

SINGAPORE FEB 2017 STRAITS TIMES DIGITAL

But our pick, as well as that of our readers, was the stylish ASUS ZenBook 3. While it may seem to be inspired by the Apple MacBook, the ZenBook 3 comes in a classy shade of blue. It is extremely well-built with premium materials. Its battery life was relatively good too.

SINGAPORE FEB 2017 STRAITS TIMES DIGITAL

The ASUS Transformer 3 Pro is probably the most polished Surface Pro 4 clone in the market today, and that should be taken as high praise.

SINGAPORE FEB 2017 HARDWARE ZONE

It has a wonderfully sharp screen, a great pen, and an excellent keyboard cover. It is also super slim and light, making it easy to carry around.

SINGAPORE FEB 2017 HARDWARE ZONE

A new category we created two years back to reflect this form factor trend, this award has been won by ASUS on both occasions. Well, you can call it a three-peat now, as ASUS is the winner yet again, this time with 33% of the votes.

SINGAPORE DEC 2016 HARDWARE ZONE

A powerful and sleek looking notebook for those who prize portability above all else.

SINGAPORE OCT 2016 HARDWARE ZONE

Ultimately, you're going to have to get your priorities straight when deciding whether or not to get the ZenBook 3. Is sheer portability and looks everything to you? Then the ZenBook 3 is probably a good fit. But if you prefer function over form, you'll be just as happy with a cheaper notebook from a different brand. That being said, this is the first Kaby Lake notebook to be available locally, so if you're looking to jump onboard with Intel's seventh-generation processors, this is still your only option for now. And if you're upgrading from a three-year-old laptop, the ZenBook 3 will net you a decent performance boost and battery life improvements.

SINGAPORE OCT 2016 STRAITS TIMES

The ASUS ROG Strix GL502 hits the sweet spot for a 15-inch gaming laptop. At \$2,698, it is competitively priced for a gaming notebook equipped with NVIDIA's latest Series-10 graphics card. This graphics card is significantly faster than the previous generation. Powering the Strix is the NVIDIA GeForce GTX 1070 graphics card, which is more than capable of supporting a virtual reality headset. It also blew past our gaming benchmarks, scoring over 100 frames per second in Doom at the maximum graphics setting. Overall, the ASUS ROG Strix GL502 provides excellent performance for its price.

SINGAPORE OCT 2016 HARDWARE ZONE

The version of the ROG Strix GL502 with the GeForce GTX 1070 retails for S\$2,698, while the GeForce GTX 1060-equipped model is slightly cheaper at S\$2,498. As far as high-end gaming notebooks go, these lean toward the more affordable end of the price scale, and ASUS is bundling them with freebies like a backpack, a pair of ROG circumaural stereo headphones, and the 5,000DPI ROG Sica optical gaming mouse.

SINGAPORE OCT 2016 STRAITS TIMES DIGITAL

This dark blue shade gives the ZenBook a classy demeanour, complemented perfectly by the gold trim along the laptop edges. The ZenBook may be inspired by the MacBook's design, but it has a more powerful processor and longer battery life.

SINGAPORE OCT 2016 HARDWARE ZONE

The display is quite gorgeous to look at despite the 1080p resolution that may not seem as impressive on paper. ASUS' notebook bears more than a passing resemblance to the MacBook, but it trumps it in almost every conceivable way, from faster hardware to a lighter and thinner design.

SINGAPORE OCT 2016 LIANHE ZAOBAO

My first trial with the latest ultra-thin ZenBook 3, the most impressive feature is its beautiful body design. After a week of testing, I found that it not only has external beauty but its internal performance is impressive as well.

SINGAPORE JULY 2016 AUGUSTMAN

The Zen AiO Pro has a gorgeous 4K display option, plenty of processing power for your heavy-duty hard work and discrete graphics in case you want to indulge in a bit of gaming.

SINGAPORE MAY 2016 STUFF TV

A top affordable tablet for those who fancy a nice display but aren't willing to pay through the nose for it.

SINGAPORE MAY 2016 ASIA ONE

The ZenBook UX305 was nominated for one of the AsiaOne People's Choice Award 2016 for the best laptop.

SINGAPORE MAY 2016 CLEO

The annual CLEO Guy Stuff Awards 2016, with ZenBook UX305 being awarded the most stylish laptop with its ultra-thin profile and stylish features.

SINGAPORE MAY 2016 HARDWARE ZONE

Also note that the ZenFone 2 Laser is available in a 5-inch variant - the ZE500KL - for just S\$239 and it shares all of the attributes of the 5.5-inch reviewed version, making it a more value for money counterpart if price is a strong consideration. Furthermore, its smaller screen size would allow it to have a higher pixel density.

SINGAPORE APRIL 2016 STUFF TV

The ASUS Zen AiO Pro Z240IC is an excellent all-in-one desktop PC that not only looks sleek, but also holds the performance you need for your day-to-day application. Whether it's family movie time or solo gaming, this desktop system gets the job done without much complaints.

SINGAPORE APRIL 2016 HARDWARE ZONE

The ZenFone Zoom on the other hand has an actual optical zoom lens, the same kind you would find in a DSLR or compact digital camera. Zoom lens are far more complicated and bulkier than their fixed focal length counterparts, which is why we haven't seen one in a slim smartphone until now.

SINGAPORE MAR 2016 HARDWARE ZONE

Nevertheless, the ZenBook's attractive design means that you shouldn't write it off just yet. Its slim profile - just 14.9mm thick - and light weight (1.3kg) make it quite portable. Its entire body is also constructed out of aluminum, and the lid features an attractive brushed metal pattern of concentric circles. The overall impression is of quite an appealing, minimalist device that is very solidly-constructed.

SINGAPORE MAR 2016 STUFF TV

A premium notebook with a premium price tag, the ASUS ROG GX700 is for gamers who want the best possible gaming experience.

SINGAPORE FEB 2016 CNET

ASUS' ZenFone Zoom breaks new ground with a built-in optical zoom camera. The ASUS ZenFone Zoom puts cool new camera tech to work.

SINGAPORE FEB 2016 STRAITS TIMES DIGITAL

The ZenBook UX305 was awarded the best Ultrabook by their readers in the ST Digital Awards 2016. Their readers chose the ASUS ZenBook UX305 as their favourite likely because of its excellent value, which is probably matched only by the HP Envy 13.

SINGAPORE FEB 2016 STRAITS TIMES DIGITAL

The ROG G752 was awarded the best gaming laptop in the ST Digital Awards 2016. The ASUS ROG G752 impressed us the most with its snappy orange highlights standing out from its rivals. More importantly, the G752 was a very reasonably priced for its high-end machine.

SINGAPORE FEB 2016 HARDWARE ZONE

The ASUS ZenFone 2 was awarded for the best mainstream smartphone. The ZenFone 2's Intel Atom Z3560 quad-core processor easily beat the rest of the field, with performance on par with Qualcomm's Snapdragon 801. We also loved its beautiful 5.5-inch Full HD display, and great rear and front camera. While the phone is entirely plastic, its brushed metallic finish is quite convincing, and we liked its ergonomic curved shape, rear volume buttons and quick launch features. At this price, the ZenFone 2 ZE551ML can't be beaten.

SINGAPORE FEB 2016 HARDWARE ZONE

ASUS was awarded for the Best 2-in-1 Notebook Brand by the Hardware Zone readers. A new category we created last year to reflect the latest trend, the inaugural winner was ASUS. This year, our readers have once again voted for ASUS (30%), maker of fine machines like the Transformer Book T300 Chi, Transformer Book Flip TP200, and T100HA.

SINGAPORE JAN 2016 CNET

The ASUS G752 is a little slimmer than its predecessor, and its new design lightens up the previous black slab look. Performance is excellent, and a backlit keyboard with macro keys makes for comfortable gaming.

SINGAPORE JAN 2016 HARDWARE ZONE

It's a 17-inch gaming notebook that features the latest Skylake processor and a GeForce GTX 980 GPU with 8GB of framebuffer. That wasn't a typo, the ROG GX700 is in fact one of the few gaming notebooks running a desktop-class GeForce GTX 980 GPU. But more than that, its pièce de résistance is its liquid-cooling dock.
