Hi. I'm a ZenBook UX390

The Most Sophisticated Ultrabook Stripes Down

To say the ZenBook UX390 is a new generation of ZenBook is a huge understatement — it's ZenBook reimagined for the next era of mobile computing. Every single precision component and elegantly crafted detail has been completely re-engineered and redesigned to make ZenBook UX390 the most sophisticated ZenBook yet. It's lighter, thinner, stronger, impossibly powerful — and utterly beautiful. Simply put, it's the world's most incredible laptop. Say hello to the ZenBook UX390.

by **ASUS**

1 What makes you who you are?

It will definitely be the worldwide recognition I've gotten. I'm the **winner of multiple design awards**, including the 2016 Computex d&i Award, 2016 Good Design Award, 2015 CES Innovation Award, 2017 iF design Award, and 2015 Computex Best Choice Award.

2 What's so different about you?

I am by far the most sophisticated Ultrabook ever designed till date, which took some serious engineering prowess and craftsmanship to realise. My **ultra-thin 11.9mm profile** meant that ASUS had to invent the world's **most compact laptop hinge — just 3mm high** — to preserve my sleek lines. Moreover, to fit in the full-size keyboard, ASUS had to create a main body that's just

2.1mm wide at the edges. What sets me apart is of course the iconic **Zen-inspired spun-metal finish** on my body that takes 40 painstaking steps to create, a special 2-phase anodising process to create this **stunning golden edge** highlights around my trim, the unique gold ASUS logo and a keyboard a matching gold backlight.

aerospace-grade aluminum, which is lighter than standard laptop alloy but **50% stronger**, ASUS has reduced my weight to only **910g**. To keep my display lightweight and ultra-slim but yet tough, they covered me with a **0.4mm of super-strong Corning® Gorilla® Glass 4**, which is twice as thin as standard cover glass.

I am by far the most sophisticated Ultrabook ever designed till date.

3 You are known for your beauty, can you tell us more?

Beauty lies in the eyes of the beholder, but if you were to ask me, I believe it would be the universal design language which I was built upon. My family has always been the benchmark for thin and light design but with myself, I believe I have brought the benchmark to a whole new level. Using an

4 Your display has always been the talk of the town, what's about it?

I believe it's because I am the very first laptop display covered with full edge-to-edge Corning® Gorilla® Glass 4, accompanied by an **ultra-slim bezel of just 7.6mm** wide that gives me a class-leading **82% screen-to-body ratio**. But most importantly, my stunning 12.5-inch full HD screen

with **wide 178° viewing angles**, superb colour reproduction and crisp detail, are stuff that gets people to rave about.

5 You pack a punch despite your petite size. How do you do that?

I was designed to be an ultra-thin laptop with unprecedented performance. That is very challenging but the engineers at ASUS overcame that. In this small package, they managed to fit me with the latest **Intel® Core™ i7** processor, up to **16GB RAM**, an ultra-fast **512GB PCIe® Gen 3 SSD** and the latest USB-C port that supports display.

6 So much power yet you can still keep your cool. How is that possible?

It's all thanks to the principle of basic physics of expelling hot air as quickly as possible to the environment. My state-of-the-art cooling system features a **liquid-crystal-polymer fan impeller** that's just **0.3mm thick** and a copper-alloy heat pipe with walls measures **0.1mm**.

7 With your busy and always on-the-go schedule, how do you have so much energy to last all day?

That's because of my special high-capacity 40Wh lithium-polymer battery, specially shaped to fit precisely into my impossibly thin profile. My fast charging technology also allows me to charge up to **60% capacity in just 49 minutes**. I can last **up to 9 hours in a day!**

8 With such thin profile, I'm sure your usage productivity is comprised.

In actual fact, it's not. My full-size backlit keyboard stretches from edge to edge, with **2.1mm bezels at each side**, and has a **key pitch** (the distance between the center of each key) of **19.8mm**, which are the same as most desktop keyboards. In addition, I also have an impressive **0.8mm key**

travel, which is twice as much as other similar products in the market. My large touchpad is also cleverly engineered for maximum comfort and accuracy, with a glass covering for smooth control, and incorporating palm-rejection technology, Smart Gestures and handwriting support.

9 We heard your voice and I must say they sound really good. What's your secret?

That's the result of the next generation of ASUS SonicMaster audio technology, produced by the ASUS Golden Ear team and audiophile specialists Harman Kardon. On top of that, **my array of four separate high-quality speakers**, powered by a **four-channel amplifier**, giving me the most incredible sound you've ever heard on a laptop.

SIMPLY PUT, IT'S
THE WORLD'S MOST
INCREDIBLE LAPTOP

10 Being small may have its shortcoming on your connections. Is this true?

Not really. With the included Mini Dock or the optional Universal Dock (sold separately), you can plug it into my next-generation USB-C port, which allows for connection with other peripherals and devices on-the-go. Connections are endless with me. ■

ASUS ZenBook 3

The World's Most Prestigious Laptop with Unprecedented Performance.

Unprecedented Performance

Our engineers had an almost impossible task when choosing the components for ZenBook 3. Their brief was to create an ultra-thin laptop with unprecedented performance. The result is an unbelievably powerful laptop with the latest 7th generation Intel® Core™ i7 processor, up to 16GB RAM, an ultra-fast storage up to 512GB PCIe® 3.0 x4 SSD and the latest USB-C port with DisplayPort output. Don't worry with what you can or cannot do with ZenBook 3 — it is practically unstoppable.

It is the world's most incredible laptop

The World's Most Prestigious Laptop

To say that the ZenBook 3 is a new generation of the ZenBook series is a huge understatement. It is reimagined for the next era of mobile computing. Every single precise component and detail has been completely re-engineered and redesigned to make the ZenBook 3 sophisticated. It is lighter, thinner, stronger, incredibly powerful and elegantly beautiful – it is the world's most incredible laptop.

Thinner. Lighter. Tougher.

The ZenBook series has always been the benchmark for thin and light design, and with the ZenBook 3, we have taken it to a whole new level. Using premium aerospace-grade aluminum, we reduced the weight and thickness to only 910g

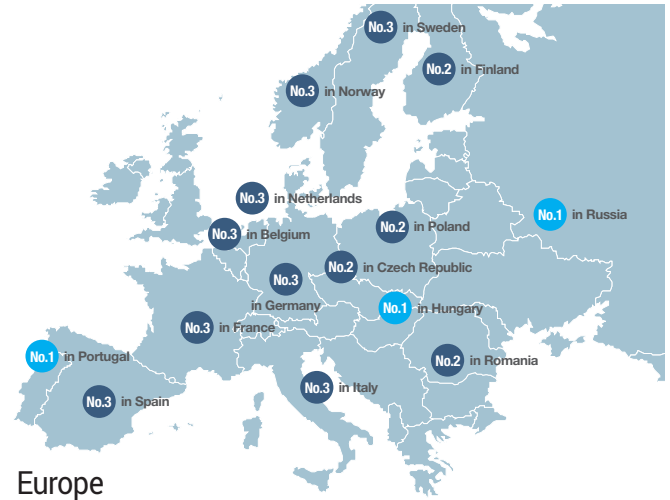

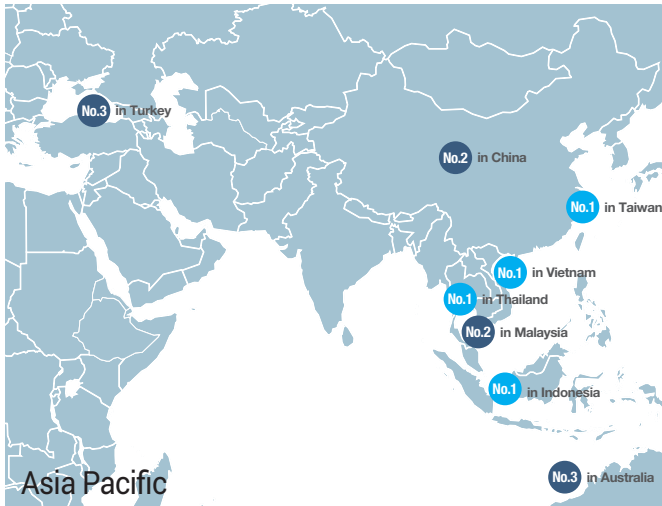

and 11.9mm respectively. To keep the display lightweight and ultra-slim yet durable, we covered it with a 0.4mm thin yet strong Corning® Gorilla® Glass 4, which is twice as thin as the standard cover glass.

No. 1 Consumer Notebook Brand in APAC

In 2015, ASUS continued to exhibit exponential growth in the consumer notebook category and was a preferred brand for consumers across Asia Pacific and Europe.

- ▶ **No.1 consumer notebook brand in Asia Pacific**
 - 2016 Q2 IDC Report* (excluding China and Japan)
- ▶ **No.1 13-inch ultra-slim Windows laptop worldwide**
 - 2015 GFK and NPD Report* (excluding convertible laptops)
- ▶ **Top 2 consumer notebook brand in China**
 - 2016 Q2 IDC Report
- ▶ **Top 2 consumer notebook brand in Central and Eastern Europe**
 - 2016 Q2 IDC Report
- ▶ **Top 2 consumer notebook brand in the world**
 - 2016 Q1 IDC Report

No. 1 Motherboard Brand in the World

ASUS has shipped more than 500 million motherboards globally since 1989. ASUS puts the best motherboards in every ASUS notebook, ensuring incredible quality and reliability.

Ranked Among World's Most Admired Companies

In the computer industry, ASUS was named among the top 10 World's Most Admired Companies by Fortune Magazine in 2015.

Ranked Among Top Global IT Company

ASUS was recognised among the top 10 global IT brands in the Consumer Electronics category of The World's Most Innovative Companies 2010, compiled by Fast Company, a leading progressive business media brand.

No. 1 in Quality and Service

ASUS ranked first in quality and innovation in The Wall Street Journal Asia survey in 2009.

4,385 Awards in 2016

In 2016, ASUS won a total of 4,385 awards from leading organisations and media groups, worldwide.

ASUS Green Technology

ASUS was the first global IT company in the world to achieve EU Flower Eco certification. It was also first to receive EuP certification for notebook PCs. Today, ASUS continues to build on a long-standing tradition of developing the world's most reliable and advanced green technologies.

ASUS Won 4,385 Awards in 2016

ASUS is dedicated to pursuing the highest level of innovation and quality in everything we do. We aspire to become one of the world's most admired leading enterprises in the new digital era. Our ongoing efforts continue to garner worldwide recognition in every aspect of product development, including design, innovation, technology, quality, service, and energy-efficiency. In 2015, ASUS earned 4,385 awards from some of the most prestigious international organisations and media groups around the world. Each award is a testament to our relentless quest and commitment to creating technology that is designed for everyone to joy.

World's Most Admired Companies

ASUS was named one of the World's Most Admired Companies by Fortune Magazine in 2015. The Fortune list is the definitive report card on corporate standing.

CES Innovation

Seven ASUS products won CES Innovation awards across six categories in 2015. Each CES award recognises the highest standards in product design and engineering.

Good Design

ASUS products won 13 Good Design awards in 2015. Each Good Design award recognises excellence in design and engineering.

iF Design

ASUS products won 10 iF Product Design awards in 2015. iF Design awards are recognised worldwide as a seal of quality, identifying products that excel in specific criteria, including design quality, degree of innovation, functionality, ergonomics and more.

Red Dot

ASUS won nine Red Dot Awards in 2015. The Red Dot Awards event is one of the largest and most widely recognised professional design competitions for design concept and prototypes. ASUS has won more than 65 Red Dot awards since 2001.

SINGAPORE

A powerful and sleek looking notebook for those who prize portability above all else

SINGAPORE
OCT 2016
HARDWARE
ZONE

Ultimately, you're going to have to get your priorities straight when deciding whether or not to get the ZenBook 3. Is sheer portability and looks everything to you? Then the ZenBook 3 is probably a good fit. But if you prefer function over form, you'll be just as happy with a cheaper notebook from a different brand. That being said, this is the first Kaby Lake notebook to be available locally, so if you're looking to jump onboard with Intel's seventh-generation processors, this is still your only option for now. And if you're upgrading from a three-year-old laptop, the ZenBook 3 will net you a decent performance boost and battery life improvements.

SINGAPORE
OCT 2016
STRAITS
TIMES

The ASUS ROG Strix GL502 hits the sweet spot for a 15-inch gaming laptop. At \$2,698, it is competitively priced for a gaming notebook equipped with NVIDIA's latest Series-10 graphics card. This graphics card is significantly faster than the previous generation. Powering the Strix is the NVIDIA GeForce GTX 1070 graphics card, which is more than capable of supporting a virtual reality headset. It also blew past our gaming benchmarks, scoring over 100 frames per second in Doom at the maximum graphics setting. Overall, the ASUS ROG Strix GL502 provides excellent performance for its price.

SINGAPORE
OCT 2016
HARDWARE
ZONE

The version of the ROG Strix GL502 with the GeForce GTX 1070 retails for S\$2,698, while the GeForce GTX 1060-equipped model is slightly cheaper at S\$2,498. As far as high-end gaming notebooks go, these lean toward the more affordable end of the price scale, and ASUS is bundling them with freebies like a backpack, a pair of ROG circumaural stereo headphones, and the 5,000DPI ROG Sica optical gaming mouse.

SINGAPORE
OCT 2016
STRAITS
TIMES

This dark blue shade gives the ZenBook a classy demeanour, complemented perfectly by the gold trim along the laptop edges. The ZenBook may be inspired by the MacBook's design, but it has a more powerful processor and longer battery life.

SINGAPORE
OCT 2016
HARDWARE
ZONE

The display is quite gorgeous to look at despite the 1080p resolution that may not seem as impressive on paper. ASUS' notebook bears more than a passing resemblance to the MacBook, but it trumps it in almost every conceivable way, from faster hardware to a lighter and thinner design.
