Frequently Asked Questions (FAQs)

What is ROG Accidental Damage Protection (ADP)?

It is a fact – accidents happen to all of us. Our ADP plan was created to protect you against damages from accidents such as liquid spills, electrical surges and drops. Only applicable to selected ROG laptops (*subject to verification by ASUS*), and valid only within the first year of product ownership starting from your purchase date.

What kind of accidental damages are NOT covered?

The ROG ADP does NOT apply to the following: scratches and dents, incorrect or inadequate customer installation, lost or stolen products, intentional damage, recovery or transfer of stored data to the product, requests for miscellaneous cables or accessories and damages caused by natural disasters.

What is the list of products that are eligible for ROG ADP plan?

This protection plan applies only to selected ROG laptops from ASUS Brand Stores and

authorised retailers. Products must be purchased in BRAND NEW factory sealed condition. Refurbished or open box devices, units sold and purchased outside of Singapore and purchases from non-authorised Singapore retailers are not entitled for this program.

How many claims can I file for accidental damage?

There is a maximum limit of only one (1) claim per registered serial number during the first year of product ownership, starting from your purchase date. Serial number validation is performed by ASUS Service Centre or Call Centre.

How do I request for a RMA or On-Site Service for my ROG product?

You can call the ROG Service Hotline at **+65 6588 1723** to request for a pick-up of your ROG laptop or on-site service of your ROG desktop (*on-site service is not applicable to ROG laptops*).

Ultimately, you're going to have to get your priorities straight when deciding whether or not to get the ZenBook 3. Is sheer portability and looks everything to you? Then the ZenBook 3 is probably a good fit. But if you prefer function over form, you'll be just as happy with a cheaper notebook from a different brand. That being said, this is the first Kaby Lake notebook to be available locally, so if you're looking to jump onboard with Intel's seventh-generation processors, this is still your only option for now. And if you're upgrading from a three-year-old laptop, the ZenBook 3 will net you a decent performance boost and battery life improvements.

SINGAPORE OCT 2016

STRAITS TIMES DIGITAL

★★★★☆

The ASUS ROG Strix GL502 hits the sweet spot for a 15-inch gaming laptop. At \$2,698, it is competitively priced for a gaming notebook equipped with NVIDIA's latest Series-10 graphics card. This graphics card is significantly faster than the previous generation. Powering the Strix is the NVIDIA GeForce GTX 1070 graphics card, which is more than capable of supporting a virtual reality headset. It also blew past our gaming benchmarks, scoring over 100 frames per second in Doom at the maximum graphics setting. Overall, the ASUS ROG Strix GL502 provides excellent performance for its price.

STRAITS TIMES DIGITAL

The version of the ROG Strix GL502 with the GeForce GTX 1070 retails for S\$2,698, while the GeForce GTX 1060-equipped model is slightly cheaper at S\$2,498. As far as high-end gaming notebooks go, these lean toward the more affordable end of the price scale, and ASUS is bundling them with freebies like a backpack, a pair of ROG circumaural stereo headphones, and the 5,000DPI ROG Sica optical gaming mouse.

This dark blue shade gives the ZenBook a classy demeanour, complemented perfectly by the gold trim along the laptop edges. The ZenBook may be inspired by the MacBook's design, but it has a more powerful processor and longer battery life.

STRAITS TIMES DIGITAL

The ZenBook 3 display is quite gorgeous to look at despite the 1080p resolution that may not seem as impressive on paper. ASUS' notebook bears more than a passing resemblance to the MacBook, but it trumps it in almost every conceivable way, from faster hardware to a lighter and thinner design.

LIANHE ZAOBAO

My first trial with the latest ultra-thin ZenBook 3, the most impressive feature is its beautiful body design. After a week of testing, I found that it not only has external beauty but its internal performance is impressive as well.

AUGUSTMAN

The Zen AiO Pro has a gorgeous 4K display option, plenty of processing power for your heavy-duty hard work and discrete graphics in case you want to indulge in a bit of gaming.

STUFF TV

The Transformer Book is a top affordable tablet for those who fancy a nice display but aren't willing to pay through the nose for it.

ASIA ONE

The ZenBook UX305 was nominated for one of the AsiaOne People's Choice Award 2016 for the best laptop.

SINGAPORE MAY 2016

CLEO

The annual CLEO Guy Stuff Awards 2016, with ZenBook UX305 being awarded the most stylish laptop with its ultra-thin profile and stylish features.

Also note that the ZenFone 2 Laser is available in a 5-inch variant - the ZE500KL - for just S\$239 and it shares all of the attributes of the 5.5-inch reviewed version, making it a more value for money counterpart if price is a strong consideration. Furthermore, its smaller screen size would allow it to have a higher pixel density.
