* As of August 17, 2018 based on internal ASUS market analysis comparing ZenBook 13/14/15 laptop size to competing products in their class (Laptops with a screen measuring 13.3 inches, 14 inches and 15.6 inches) from vendors including Acer, Apple, HP, Huawei, Lenovo, Microsoft and Samsung.
In Search of Incredible

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We’re always on search of incredible ideas and experiences, and we aspire to deliver the incredible in everything we do. Our extensive product portfolio includes motherboards, graphics cards, optical drives, displays, desktop and all-in-one PCs, laptops, netbooks, servers, multimedia devices, wireless solutions, networking devices, tablets and smartphones, and even robotics.

Our results speak for themselves. We're the No.1 consumer laptop brand in Asia-Pacific, and a top-three vendor of consumer laptops globally. We’re also proud to be world's best-selling, most award-winning motherboard brand. Driven by the core values of lean thinking, innovation, aesthetics and achieving results, ASUS won 4,511 Awards in 2017 — and the total revenue for 2017 was approximately US$13 billion. The combined talent of 16,000 international employees, including a world-class R&D team of 5,000 engineers, has elevated ASUS to become one of Fortune magazine’s World’s Most Admired Companies in 2018.

Worldwide Achievement

No. 1 Motherboard Brand in the World
ASUS makes the world’s best-selling, most award-winning motherboards, shipping over 500 million units since 1989. They also form the reliable heart of every ASUS laptop.

One of the World’s Most Admired Companies
ASUS has been named as one of the top 10 World’s Most Admired Companies by Fortune Magazine in 2018, for its contribution to the computer industry.

4,511 Awards in 2017
In 2017 alone, ASUS earned 4,511 awards from some of the most prestigious international organizations and media groups around the world.

ASUS Green Technology
ASUS was the first global IT company in the world to achieve EU Ecolabel certification for laptops, and achieved 31,068 similar labels globally in 2017.

Most Valuable International Brand from Taiwan
ASUS is ranked as the most valuable international brand from Taiwan for the fifth consecutive year in the 2017 Taiwan Global Brands Survey, conducted by world-leading brand consultancy Interbrand.

Top 100 Global Technology Leader
ASUS has been named as a 2018 Top 100 Global Technology Leader by Thomson Reuters, reaffirming the company’s position as a top technology brand.

ASUS is dedicated to pursuing the highest level of innovation and quality in everything we do. We aspire to become one of the world's most admired leading enterprises in the new digital era. Our ongoing efforts continue to receive worldwide recognition for every aspect of product development, including design, innovation, technology, quality, service, and energy efficiency.

Since 2008, ASUS has earned a total of 39,434 awards from some of the most prestigious international organizations and media groups around the world. Each award is a testament to our relentless quest and commitment to creating solutions designed for everyone to joy.
Ensuring The Best Quality Laptops

Durability is a hallmark of ASUS design. We strive to create devices that exceed expectations in any environment. That’s why ASUS laptops undergo a rigorous torture-test regime, including military-grade testing to the demanding MIL-STD-810G standard*. Using up to 12 separate tests in environmental conditions, we hope you’ll never encounter. So whether you’re an urban explorer or an Arctic trailblazer, you can rest assured your laptop is ready for the worst that life on the road can throw at it.

Drop Test
Deep tests check the resistance of the chassis and internal components to damage from unexpected drops.

Vibration Test
Vigorous testing with over 20,000 open/close cycles helps ensure exceptional hinge strength.

Enhanced Hinge Test
These emulate the effects of long-term operation, so engineers can identify any possible design or component vulnerabilities.

Accelerated Life Test
Extensive vibration testing ensures that the chassis and internal components can withstand even the most extreme travel conditions.

EMI Test
This test ensures that ASUS laptops perform well in internal or external electromagnetics fields.

Altitude Test
This tests the ability to survive extremes of altitude encountered in shipping by air or by rail.

Noise and Audio Test
Laptops undergo fan, hard drive, and power-supply resonances to ensure the quietest performance possible.

Temperature Test
Extremely high or low temperatures tests ensure laptops’ functions consistently for users everywhere.

Panel Resistance Test
Panel resistance tests ensure that the display can endure unexpected bumps or pressure.

Shock Test
To ensure accurate keyboard durability, specially designed ASUS robots test individual keys with millions of keycycles.

Port Test
Port tests ensure that contacts and plugs are durable even in environments where devices are frequently connected and disconnected.

EMI Test
To ensure accurate keyboard durability, specially designed ASUS robots test individual keys with millions of keycycles.

Frequently asked questions:
1. Can you explain what the term “Military-grade testing” means?
   - Military-grade testing refers to high-standard testing that exceeds military specifications to ensure the durability of the device in extreme conditions.

2. What is the purpose of the MIL-STD-810G standard?
   - The MIL-STD-810G standard is a set of criteria for testing the performance and reliability of electronic equipment and systems in harsh environments.

3. How many different tests are included in a test regime?
   - Our test regime includes up to 12 separate tests.

4. Why is it important for users to know about this testing?
   - Knowing about this testing ensures users that their devices are built to withstand the rigors of everyday use, providing peace of mind and longevity.

ASUS Pick-Up & Return Service:

Still trying to find the closest service centre?

Too busy to send your notebook for service by post or courier?

ASUS provides the service you need. Beyond our 2-year global warranty, we offer a premium Pick-Up & Return Service for customers and dealers. For customers, this allows you to request door-to-door service, or you may just drop your ASUS notebook or tablet at your nearest retailer.

5 simple steps to apply ASUS Pick Up and Return Service for Laptops, Mobile & Tablet

1. Call 1300-88-3495 for Pick Up & Return Service
2. Fill in the online form with your details
3. Receive call / email for validation, print the docket from the email
4. Stick the docket on the Notebook, mobile or tablet cartons
5. Wait for the courier to collect

4 simple steps to apply ASUS Onsite Service for Desktops or AIO

1. Call 1300-88-3495 for Pick Up & Return Service
2. CSR (Customer Service Representative) will provide the Service Request number
3. Receive call for validation and arrange the next available time slot
4. Wait for technician onsite to service your Desktop or AIO

Terms and Conditions:
(1) The Pick-Up & Return service applies to ASUS Notebook, Mobile and Tablet only.
(2) The Pick-Up & Return service for defective unit within warranty period will be free of charge.
(3) Out-of-warranty, non-defective or customer induced-damage units are not covered by Pick-Up & Return service. In such cases, dealer or end user needs to carry in for repair.
(4) Pick-Up & Return service only applies to RMA repair and does not apply to DDA claims.
(5) Customer shall be responsible for saving and backing up any data contained on the storage device(s) of an ASUS product being returned to ASUS for In-warranty or Out-warranty service.
(6) For Out Of Warranty service, customer will receive a quotation email for the repair service, customer is required to reply within 3 days. If no response from customer, RM 100 will be charged as inspection fee.
(7) Do not send in unrelated accessories like: Charger, Battery, Clayphone, Sim card, Memory card, Battery cover, Ram, etc. ASUS will not be liable or responsible for any discrepancies or loss. **Unless those accessories are required.

ASUS ZenBook Pro UX580

Say hello to the intelligent touchpad

ScreenPad™ is an exciting new way to work with your laptop. It’s an interactive display with helpful functions that intelligently adapt to match whatever you’re doing, making it easier and quicker to multitask and get things done. It can change functions automatically when you switch apps, and you can create your own shortcuts. You can also extend your Windows desktop onto ScreenPad™!

Effortless performance

Packed with state-of-the-art components, ZenBook Pro 15 is built to handle anything you can throw at it without a fuss. It’s capable of shaming many desktops, and its high-performance processor, ultrafast storage and gaming-grade graphics let you blitz through the most demanding tasks faster than ever before. ZenBook Pro 15 will never keep you waiting.

Unleash your creative power

The all-powerful, all-conquering ZenBook Pro 15 is faster and more sophisticated than ever before, with the jaw-dropping new ScreenPad™ that adapts to your needs for effortless control and enhanced efficiency. Experience the professional power of its up to Intel® Core™ i9 hexa-core CPU, GTX 1050Ti GPU, 1TB PCIe® SSD, Intel® Gigabit Wi-Fi and Thunderbolt™ 3 ports, while enjoying immersive multimedia on its 4K UHD NanoEdge PANTONE®-validated display and powerful Harmon Kardon-certified audio system. With ZenBook Pro 15, you don’t have to wait for the future: you can touch it, right here and right now.

Windows 10 Home

Our best looking display ever

The NanoEdge 4K UHD ultrabright bezel display on ZenBook Pro 15 is truly awe-inspiring, with pin-sharp detail and bright, vivid colors for more lifelike images. It’s gorgeous for everyday use, and is PANTONE® validated with factory-calibrated color accuracy, making it a dream for graphics professionals.

The world’s smallest 13 inch laptop

Creativity. Style. Innovation. These are the qualities that define the elegant new ZenBook 13. Everything in this take anywhere masterpiece — it’s one of the world’s smallest 13-inch laptops — is designed to give you the freedom to discover your creative power, including its breathtaking frameless NanoEdge display. You’ll appreciate not only the tremendous power within and the thoughtful attention to detail — such as the exclusive ErgoLift hinge and NumberPad touchpad — but also the timeless beauty of the design, with its sensational Royal Blue or Icicle Silver finish enhanced by the new Rose Gold trim panel.

Ultraportable, redefined

ZenBook 13 heralds a new era of ultraportable design, with an ultracompact, ultralight chassis that makes it the world’s smallest laptop series! None of the traditional ZenBook style has been lost, though: there’s the iconic Zen-inspired spun-metal finish on the lid and a choice of prestigious Royal Blue or sophisticated Icicle Silver finishes, both newly enhanced with a contrasting Rose Gold trim panel above the keyboard for an extra touch of luxury.

Unbounded beauty with frameless NanoEdge display

Designed to give you the most screen area in the least physical space, the new frameless four-sided NanoEdge design of the new ZenBook series is simply breathtaking: it makes any visuals more immersive, with less distraction for your eyes.

Exclusive NumberPad

Tap the NumberPad icon at the top right corner of the touchpad, and an illuminated numeric keypad appears. With NumberPad you can quickly perform data entry or calculations, and in touchpad mode the glass covering provides super-smooth and precise fingertip control with multitouch gesture support.

All-day battery for non-stop lifestyles

ZenBook 13 is powered by a high-capacity battery that won’t let you down, however long and demanding your working day is. Extended journeys or day-long meetings are no problem for ZenBook 13, even when power outlets are in short supply!

Power is a key driver of productivity. That’s why ZenBook 13 delivers the all-day battery you need, without compromising on performance, style or convenience.

It is not necessary to disassemble the computer to add or replace accessories or components. Power is also supplied via internal USB ports on ZenBook 13.

ASUS ZenBook 14 / 15
The world’s most compact laptops

Unbounded beauty with frameless NanoEdge display

The world’s smallest 15-inch laptop

Unbounded performance

The GeForce GTX 1050 Max-Q discrete graphics chip in ZenBook 15 give you desktop-level performance in a laptop. With its dedicated video memory, whatever your creative graphics task — such as video rendering, photo editing or 3D modeling — ZenBook 15 delivers the silky-smooth speed you need.

Unbounded beauty with frameless NanoEdge display

Designed to give you the most screen area in the least physical space, the new frameless four-sided NanoEdge design of the new ZenBook series is simply breathtaking: it makes any visuals more immersive, with less distraction for your eyes.

The world’s smallest 15-inch laptop

Everything in the elegant new ZenBook series is designed to empower your creativity. Enjoy the breathtaking new frameless NanoEdge display, appreciate the tremendous power of the up to 8th Gen Intel® Core™ i7 processor and high performance discrete graphics, marvel at the unique ErgoLift hinge and exclusive NumberPad touchpad, and admire the timeless beauty of the ultracompact design. ZenBook is waiting: are you ready to unleash your creative vision?

All-day battery for non-stop lifestyles

ZenBook 15 is powered by a high-capacity battery that won’t let you down, however long and demanding your working day is. Extended journeys or day-long meetings are no problem for ZenBook 15, even when power outlets are in short supply!

The laptop that recognizes you!

The advanced infrared (IR) camera on ZenBook 15 has see-in-the-dark capabilities that ensure fast, reliable hands-free face login with Windows Hello — even in dim environments. From wake-up to login takes only around a few seconds and unlike some rivals with awkwardly placed cameras, on ZenBook 15 it’s sensibly located on the slim top bezel of the NanoEdge display — yet another thoughtful ZenBook design detail.

ASUS ZenBook Flip S
The world’s thinnest convertible laptop*

Ultra-thin and light
ASUS ZenBook Flip S is a timelessly elegant masterpiece, exquisitely crafted from solid aluminum. The chassis is forged from a single block of metal that’s carefully honed until it’s a mere 10.9mm thin. Weighing just 1.1 kg, it’s effortlessly portable. And because it’s made from premium, aerospace-grade aluminum, it’s lighter than standard laptop alloy but 50% stronger.

360° convertible laptop designed to go anywhere
ASUS ZenBook Flip S is one of the world’s thinnest and lightest convertible laptops, designed for anywhere and everywhere. It combines elegant sophistication with the convenience and versatility of a 360°-flippable display. This ultra-thin, ultra-light convertible is a stylish laptop, a handy tablet — or anything in between. Its Intel® Core i7 processor lets you sail through everyday computing tasks with ease. And it supports a stylus, so it’s your perfect partner for Windows 10!

Completely connected
ZenBook Flip S includes all the accessories you need for a perfect mobile experience. A black leather sleeve keeps it safe from scratches, and an all-in-one USB-C™ Universal Dock gives you all the ports you need, including an SD card reader, LAN, VGA, HDMI, standard USB 3.0 and a USB-C™ port for charging. Connecting to all your devices at home or in the office is incredibly easy with ZenBook Flip S.

ASUS Pen & Windows Ink
Artists, photographers and designers will love the endless possibilities that ZenBook Flip S has to offer. With full support for the ASUS Pen and Windows Ink, it’s the perfect choice for creativity. ASUS Pen is an active stylus with a slim and elegant aluminum design and a premium feel. It’s the perfect accessory that allows you to accurately draw, write or annotate in any supported app. Windows Ink allows you to create sticky notes, capture ideas and details — as they happen. You can even take a screenshot and share it in one click.

ASUS ZenBook 13 (UX331)
Create at the Speed of Light

Ready to go, anytime
Designed for effortless portability, ZenBook 13 is just 13.9mm thin and 0.99 - 1.12kg light, with a slim-bezel NanoEdge display that makes it much more compact than a typical 13-inch laptop. With ZenBook 13, you’re always ready to go anywhere at a moment’s notice.

13.9 mm Thin
0.99 - 1.12 kg Light

The ultrapowerful ultraportable
If you need an ultrathin Windows 10 Pro laptop with serious processing power and class-leading graphics performance, ZenBook 13 is the perfect choice. At its heart is the latest 8th Generation Intel® Core™ i7 processor — which can be boosted to 3.7GHz when needed — with 16GB RAM. And blazingly fast storage is provided by up to a 1TB PCIe® SSD. So whether you’re creating mega-sized office documents, manipulating high-resolution photos, editing HD video, or simply taking a break with the latest high-powered games, ZenBook 13 will never keep you waiting.

All-day battery for non-stop lifestyles
Designed for non-stop, on-the-go lifestyles, ZenBook 13 offers the freedom of all-day battery life. A specially designed 50Wh lithium-polymer battery gives ZenBook 13 up to 15 hours of autonomy. Lithium-polymer batteries retain most of their original charge capacity even after hundreds of charge cycles — giving them a lifespan that’s up to 5X longer than standard batteries, so you’ll have less need to worry about deteriorating battery performance.

89%
Screen to body ratio

Lightening your load
VivoBook S13 is the ultraportable that doesn’t weigh you down. It’s just 17.9mm thin and 1.2kg light, simply slip S13 into your messenger bag or backpack, and away you go! The new frameless four-sided NanoEdge display helps keep dimensions to a minimum. For a 13-inch laptop, S13 is surprisingly compact and lightweight with a chassis size that’s only slightly larger than an 11-inch laptop for true go-anywhere computing.

Give yourself a lift
Open up VivoBook S13 for a world of productivity and possibilities. Its precision-engineered ErgoLift hinge has a silky-smooth dual action that holds the display securely at any angle, and adds a 2.5° keyboard tilt to give you a perfect typing position every time.

It’s all in the details
The stylish VivoBook S13 features an aluminum construction and is available in Icicle Gold, Rose Gold, and Transparent Silver. The Icicle Gold option comes with a complementary brushed finish around the keyboard for a premium feel—it’s these little details that make S13 unique.

See and do more on a frameless display
The chic VivoBook S13 breaks boundaries, and is the first ASUS laptop to feature a stunning frameless four-sided NanoEdge display, giving you a 4.3mm-thin bezel for an astounding 89% screen-to-body ratio.

Making everything possible
Your future is what you make of it, and VivoBook S13 has the tools to help you every step of the way. With the very latest 8th Generation Intel® Core™ processors, you’re ready for what lies ahead, be it productive multitasking, multimedia editing, or casual gaming. S13 also features up to high-speed 256GB SSD storage for improved data performance and near-instant boot-up times.

ASUS VivoBook 15 is thinner and lighter than ever: It weighs just 1.7 kg and has an amazingly thin 19.4mm profile. It’s an everyday laptop with the weight and compactness of an ultrabook.

**Immersive visuals, easy portability**

ASUS VivoBook is the perfect combination of beauty and performance. Available in multiple colors and finishes, VivoBook 15 is a Windows 10 laptop powered by a 8th Generation Intel® Core™ i5 processor with 4GB RAM and MX150 graphics®. With the large capacities of a HDD, it’s the ideal laptop for daily computing and entertainment.

**Amazing performance**

ASUS VivoBook 15 is powered by up to the latest 8th Generation Intel Core i5 processor, with 2GB MX150 graphics® for smooth visuals and great gaming experiences. It also features dual-band 2x2 802.11ac® Wi-Fi for superfast internet connections.

**Fast Charging**

- **Battery Lifespan**: 3x
- **60% in 49 minutes**

**NanoEdge display with ultra narrow bezel**

Fitting a 15.6-inch Full HD display into a frame size that’s typical of a 14-inch laptop isn’t easy – but the ultra thin bezel of the NanoEdge display on the VivoBook 15 makes it possible. With the 7.8mm bezel on the NanoEdge display, VivoBook 15 has an incredible 80% screen-to-body ratio – so you get more screen for more immersive viewing.

**Thinner and lighter**

ASUS VivoBook 15 is thinner and lighter than ever: It weighs just 1.7 kg and has an amazingly thin 19.4mm profile. It’s an everyday laptop with the weight and compactness of an ultrabook.
ASUS VivoBook A542
Stylish design, smart productivity

ASUS VivoBook A542 is the perfect combination of beauty and performance. Powered by a 8th Generation Intel® Core™ i5 processor with 4GB RAM and Discrete graphic MX130. It’s the ideal laptop for daily computing and entertainment. It is available in a high-gloss spun finish in Icicle Gold & Star Grey.

Large storage capacity
With the blistering large storage capacities of a 1TB HDD. It can use the HDD to house large files such as movies, music libraries and photo albums.

Amazing performance
The ASUS A542 is powered by up to the latest 8th Generation Intel® Core™ i5 processor and Discrete graphic MX130 for smooth visuals and great gaming experiences. And with dual-band 802.11ac Wi-Fi, you’ll enjoy super-fast online performance.

Complete connectivity, including USB Type-C™
A USB 3.1 port with a reversible USB Type-C™ connector makes connecting devices quick and easy. USB 3.1 provides data transfer speeds as fast as 5Gbps — up to 10x faster than USB 2.0 connections! You can transfer photos, music and large video files in a fraction of the time: transferring a movie with a file size of 2GB takes less than two seconds. The ASUS A542 also features HDMI and VGA ports, as well as a card reader for hassle-free compatibility with a wide range of peripherals, displays and projectors.
ASUS A407 / A507

Premium thin & light laptop with fingerprint sensor

8th Gen Intel® Core™ processors: Designed for what’s coming next

Intel, the Intel Logo, Intel Inside, Intel Core, and Core Inside are trademarks of Intel Corporation or its subsidiaries in the U.S. and/or other countries
ASUS X570
Productivity and entertainment, everyday

Amazing performance
ASUS X570 is a slim and lightweight high-performance laptop that’s powered by the latest generation Intel® Core™ processor. It delivers stunning visuals thanks to a FHD display with 100% sRGB color gamut and high-quality GeForce® GTX 1050 gaming-grade graphics. On top of that, it boasts a dual-storage design that combines the fast data speeds of a 128GB SSD with the large capacities of a 1TB HDD.

A stunning finish with colored edges
ASUS X570 sports an eye-catching look — with a smart and sophisticated Reaper Black finish accented by Lightning Blue edges. Its 21.9mm profile and overall weight of 1.9 kg makes it one of the lightest high-performance laptops available.

FHD display for vivid visuals
The ASUS X570 combines optimized hardware and software to provide best-in-class visuals. A FHD panel with wide-view technology, 72% NTSC and 100% sRGB color gamut, and ASUS Splendid display technology provide richer, deeper and more accurate colors — for any type of content.

All-day productivity and entertainment
An everyday laptop deserves nothing less than all-day battery life. To achieve its remarkable up to 9 hours of web browsing, we designed a special high-capacity 48Wh lithium-ion battery. And with ASUS fast-charge technology, a low battery can be charged to 60% in just 49 minutes.

ASUS X505
Productivity and entertainment, everyday

ASUS VivoBook X505

Immersive visuals, easy portability
ASUS X505 is the perfect combination of beauty and performance. Available in several colors and finishes, ASUS X505 is a Windows 10 laptop powered by the latest generation AMD A9 processor with up to 4GB DDR4 RAM and R5 M420 graphics. With the large capacities of an HDD, making it the ideal laptop for daily computing and entertainment.

Thinner and lighter
ASUS X505 is thinner and lighter than ever — with an amazingly thin 20.35mm profile, it weighs just 1.65kg*. It’s an everyday laptop with the weight and compactness of an ultrabook.

NanoEdge display with ultra narrow bezel
The ultra thin bezel of the NanoEdge display on the ASUS X505 allows a 15.6-inch Full HD display to fit into a frame size that’s only slightly larger than those typically used in 14-inch laptops. The 7.7mm bezel on the NanoEdge display also results in an incredible 81% screen-to-body ratio — so you get more screen for more immersive viewing.

Amazing performance
ASUS X505 is powered by up to the latest generation AMD A9 processor with up to 16GB DDR4 RAM and R5 M420 graphics for smooth visuals and great gaming experiences. It also features dual-band 2x2 802.11ac Wi-Fi — so you’ll enjoy super-fast online performance.

Errors: while all efforts are made to verify information presented here, inadvertent errors do occur from time to time and order arising from such errors can be declined.

ASUS E203

Featherweight design with day-long battery life

Model Processor Operating System Display Graphic Card Memory Storage Connectivity Interface Price Warranty

E203MA Intel® Celeron® N4000 Processor (4M Cache, up to 2.6 GHz) Windows 10 Home Intel® UHD Graphics 600 500GB SATA HDD 1 x USB-C, 2 x USB 3.0 Type-A ports, HDMI output and microSD card reader 4GB RM1,249 1 Year Global Warranty

Featherweight design for those constantly on the go
The ASUS E203 is the world’s lightest and most compact 11.6-inch laptop that is powered by up to the latest Intel® quad-core processors for unmatched productivity on the go. The ASUS E203 features up to a 500GB HDD*, convenient connectivity features including a reversible USB-C™ port and dual-band 802.11ac Wi-Fi, and up to a class-leading 10 hours of battery life. It is pre-loaded with Windows 10, and features Cortana voice commands and other Windows enhancements. The ASUS E203 is available in two elegant colors — Star Grey and Petal Pink.

Designed for mobility
The ASUS E203 is designed for those constantly on the go, and easily fits into a messenger bag or backpack. This 11.6-inch laptop weighs just 980g*, has an ultra-thin 16.9mm* profile and a footprint smaller than an A4 sheet. And with 10 hours of battery life, it means you can leave the power adaptor at home.

Productive performance
The ASUS E203 is powered by up to the latest Intel® Pentium® quad-core processor. It has up to a 500GB HDD and convenient connectivity including a reversible USB-C™ port, two USB 3.0 Type-A ports, HDMI output and dual-band 802.11ac Wi-Fi. The ASUS E203 is primed for productivity.

Cinematic audiovisuals
ASUS Tru2Life Video technology uses intelligent algorithms to optimize the sharpness and contrast of every pixel by 150 percent to produce incredibly vivid and realistic imagery. ASUS Splendid display technology optimizes imagery to provide richer, deeper and more accurate colors – for any type of content. The ASUS E203 also features dual speakers and ASUS SonicMaster technology for immersive surround-sound.

Ergonomic typing and larger touchpads
ASUS Eeebook E203 has a full-size ergonomic keyboard with 1.6mm key travel for supreme typing comfort. Its large multi-touch touchpad is similar to those found on larger 14-inch laptops. It is designed for extra-sensitive responsiveness, with Windows Precision Touchpad (PTP) support and palm-rejection technology for effortless navigation with Windows apps and other features.
Transformer Book T101HA is fresh, vibrant and stylish. It's a lightweight, ultra-portable 10.1in laptop with up to 11hrs battery life, and its brand-new, reversible hinge enables four versatile modes — tablet, laptop, stand and tent — to suit whatever you want to do! The durable metal finish has stylish honeycomb-inspired patterning on the keyboard area, comes in three fresh and vivid colors. It features Windows 10, a full-size USB port on the tablet and a quad-core Intel® processor. Weighing just 580g in tablet mode, it's everything you need for your mobile lifestyle!

One Laptop. One Tablet. One Device.
Transformer Book T101HA is fresh, vibrant and stylish. It's a lightweight, ultra-portable 10.1in laptop with up to 11hrs battery life, and its brand-new, reversible hinge enables four versatile modes — tablet, laptop, stand and tent — to suit whatever you want to do! The durable metal finish has stylish honeycomb-inspired patterning on the keyboard area, comes in three fresh and vivid colors. It features Windows 10, a full-size USB port on the tablet and a quad-core Intel® processor. Weighing just 580g in tablet mode, it's everything you need for your mobile lifestyle!

Brilliantly Designed For Fun-Packed Freedom!
We designed Transformer Book T101HA using aluminum to make it tough, light and slim. It also feels great, and shrugs off everyday knocks and scuffs. With its fresh, vivid colors — Glacier Gray, Rose Gold and Mint Green — there’s a T101HA for everyone. And the unique honeycomb-inspired pattern on the keyboard surround adds true individuality to T101HA —even the smallest details are important!

Four Versatile Modes To Match The Way You Work — Or Play!
Transformer Book T101HA’s brand-new reversible hinge makes it even more versatile! Work productively in laptop mode, detach the tablet for catch up with your online life, flip it round and re-attach it to watch movies in stand mode, or use tent mode to share cool stuff with your friends and colleagues.

Enjoy Brighter, Sharper And Clearer Visuals
At 400cd/m², the gorgeous display is one of the brightest screens in its class, as well as having wide viewing angles! Exclusive ASUS Tru2Life video enhancement and TruVivid direct-bonding technology ensure the best possible images in any situation, with sharp, realistic videos and fewer annoying reflections.

THE NEW STANDARD FOR ULTRAPORTABLE GAMING

Clever design and expert craftsmanship are required to put high-end chips into the slimmest gaming laptop ever. At just 14.95~15.75mm thin, the metal chassis and CNC-milled unibody lid make ROG Zephyrus S portable enough for life on the go and tough enough to survive everyday abuse. In one fluid motion of hidden scissor-door hinges, it transforms from svelte sidekick to gaming powerhouse.

AURA SYNC BEYOND THE GAMING KEYBOARD

The keyboard ensures precise input in the heat of battle, and it’s built to last. You can customize the backlight colors and effects to suit your style, and another configurable RGB zone illuminates the AAS intake at the back. Aura Sync harmonizes lighting across compatible ROG mice, headsets, and other peripherals to give your setup a cohesive look.

PRECISION KNOWS NO BOUNDS

ROG Strix SCAR II brings you power and style for your FPS esports gaming. Boasting the world’s first 144Hz super-narrow-bezel display with an ultrafast 3ms gray-to-gray (GTG) response time for ultra-accurate targeting, Strix SCAR II has no equals! To give you an edge in the heat of battle, powerful HyperCool Pro thermal system: this delivers the extreme cooling needed to squeeze every last drop of performance out of its 8th Generation Intel® Core™ i7 processor and GeForce® GTX 10-Series graphics. Upgrade your firepower with Strix SCAR II — it’s the ultimate weapon for the fiercest gunfights!

RANGEBOOST FOR ZERO-DEAD-SPOT WI-FI CONNECTION

ROG Strix gaming laptops are the first in the world to feature multi-antenna Wi-Fi for 30% more range, higher Wi-Fi throughput, and fewer connection drops. Patented ROG RangeBoost technology combines four antennas located at the back and front of the machine with a unique algorithm that constantly scans and selects the best pair of antennas able to cover each other’s dead spots, resulting in the strongest possible signal.

Prices displayed are inclusive all taxes & duties. Price, specification and availability are subject to change without prior notice. The models of free ASUS bundle gifts are subject to change without prior notice.
RGB-BACKLIT KEYBOARD

FX505 has a keyboard that’s optimized for gaming, featuring RGB-backlighting across all zones that can be controlled via the TUF Aura Core panel so you can express your own unique style. Exclusive HyperStrike technology ensures more accurate typing and improved ergonomics thanks to a desktop-inspired layout with a highlighted WASD key group, broader space bar, isolated arrow keys, and recognizable gaps between elements. The patented trapezoid-cut lid and intelligent parallel fan placement is also improved by the HyperCool technology that ensures exceptional cooling during gaming marathons. Furthermore, cooling is also improved by the patented trapezoid-cut lid and intelligent parallel fan placement.

EXTREME IMMERSION ON AN ULTRAFAST DISPLAY

The new NanoEdge design has an even thinner bezel for extreme immersion in a much more compact package. FX505 features an IPS-panel display with minimal motion blur. A 100% sRGB color gamut and wide-view angles ensure vivid and consistent colors, even when you’re viewing it from extreme positions.

HYPERCOOL TECHNOLOGY IMPROVES DURABILITY

ASUS-exclusive HyperCool technology comprises of the Anti-Dust Cooling (ADC) system and Fan Overboost technology to ensure exceptional cooling during gaming marathons. Furthermore, cooling is also improved by the patented trapezoid-cut lid and intelligent parallel fan placement.

TOUGHER THAN STANDARD

Infused with the spirit of The Ultimate Force (TUF), FX505 passes a series of rigorous MIL-STD-810D tests, successfully surviving varying conditions including solar radiation exposure, high altitude, and temperature extremes. It’s certified to endure day-to-day use, from accidental knocks to sudden drops on a desk. Durable and stable, FX505 has been pushed to the limit to ensure only the very best for gamers.

Package. FX505 features an IPS-level panel with up to an ultrafast 144Hz refresh rate for supersmooth gameplay with minimal motion blur. A 100% sRGB color gamut and wide-view angles ensure vivid and consistent colors, even when you’re viewing it from extreme positions.
