In Search of Incredible

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We’re always in search of incredible ideas and experiences, and we aspire to deliver the incredible in everything we do. Our extensive product portfolio includes motherboards, graphics cards, optical drives, displays, desktop and all-in-one PCs, laptops, netbooks, servers, multimedia devices, wireless solutions, networking devices, tablets and smartphones, and even robotics. Our results speak for themselves. We’re the No. 1 consumer laptop brand in Asia-Pacific, and a top-three vendor of consumer laptops globally. We’re also proud to be world’s best-selling, most award-winning motherboard brand. Driven by the core values of lean thinking, innovation, aesthetics and achieving results, ASUS won 4,511 awards in 2017 — and the total revenue for 2017 was approximately US$13 billion. The combined talent of 16,000 international employees, including a world-class R&D team of 5,000 engineers, has elevated ASUS to become one of Fortune magazine’s World’s Most Admired Companies in 2018.

Ensuring The Best Quality Laptops

Durability is a hallmark of ASUS design. We strive to create devices that exceed expectations in any environment. That’s why ASUS laptops undergo a rigorous torture-test regime, including military-grade testing to the demanding MIL-STD-810G standard*. Using up to 15 separate tests in environmental conditions, we hope you’ll never encounter. So whether you’re an urban explorer or an Arctic trailblazer, you can rest assured your laptop is ready for the worst that life on the road can throw at it.

*Selected ZenBook and ASUSPRO models will be tested according to the demanding MIL-STD 810G military-grade standard to ensure maximum reliability and durability and the number of tests passed by each laptop model is shown in the individual model’s specifications sheet.

Drop tests check the resistance of the chassis and internal components to damage from unexpected drops.
Shock tests ensure a laptop can withstand unexpected impacts such as accidental bumps, or jarring movements during shipping.
Extensive vibration testing ensures that the chassis and internal components can withstand even the most extreme travel conditions.

This tests the ability to operate in hot, humid environments for ten 24-hour cycles.
These simulate the effects of long-term operation so engineers can identify any possible design or component vulnerabilities.
Vigorous testing with over 20,000 open/close cycles helps ensure exceptional hinge strength.

This tests the ability to survive extremes of altitude encountered in shipping by air or air travel.
These simulate the effects of long-term operation so engineers can identify any possible design or component vulnerabilities.
Panel resistance tests ensure that the display can endure unexpected bumps or pressure.

This tests the ability to operate in hot, humid environments for ten 24-hour cycles.
This ensures that ASUS laptops perform well in internal or external electromagnetic fields.

Incredible Visuals

ASUS Splendid

ASUS Splendid technology enhances the display by reproducing more-brilliant colors for visually stunning experience, whatever you’re looking at! And you don’t even have to lift a finger, as it works by automatically fine-tuning the display settings — including color temperature, contrast and brightness — to optimize any kind of image. The result is richer, deeper colors and stunning visuals whether you’re watching movies, playing games or browsing through your photos.

ASUS Tru2Life Video

ASUS Tru2Life Video is an exclusive video enhancement technology that’s similar to that found in high-end TVs. It uses intelligent software algorithms to optimize the sharpness and contrast of every video frame, so that videos look clearer, more detailed and more realistic. Every time your computer sends a frame of video to the screen, ASUS Tru2Life Video analyses every single pixel in the frame and optimizes its brightness and sharpness individually.

Incredible Sounds

ASUS SonicMaster

ASUS SonicMaster is a tailored mix of superior hardware and cleverly-designed software that gives improved audio quality, with louder, clearer, and more accurate sounds whatever you’re listening to — movies, music, games or spoken words. It produces sound like you’ve never heard on a laptop, with a wider frequency range for clearer vocals and rich bass. It’s as though you’re at a live concert when listening to your favorite music, and blockbuster movies become totally immersive.

ASUS Audio Wizard

The ASUS Golden Ear team is a group of professional sound experts responsible for the entire audio subsystem of each device. Working with world-renowned audio technology companies such as Harmon Kardon, the Golden Ear team customizes and fine-tunes the audio hardware and software on every device to ensure that your sound experience is thrilling, immersive and unforgettable.

ASUS Provides True
2-Year International Warranty
(100% FREE Service Charge & Spare Parts)

Did you know that only ASUS offers a 2-year Global Warranty that is absolutely FREE? Some vendors claim to give a 3-year warranty, but it is actually only 1 year warranty plus 2 years free of service charge. You still have to pay for the cost of replacing spare parts. That means if the 1 year warranty has expired, you still have to pay the cost of spare parts for repairs. *1 year warranty for battery

The ASUS Premium Care is available nationwide at select ASUS Authorized Service Partners (ASPs).

The world’s most compact 13.9” laptop

With ZenBook S13, small size is no obstacle to performance: it’s built to get things done as quickly and efficiently as possible, with no fuss or drama. The very latest Intel Core processors are now even faster for smooth and responsive performance whatever you’re doing, and discrete NVIDIA graphics deliver all the visual horsepower you need for demanding creative tasks. With no compromises on connections, ZenBook S13 offers the convenience of standard USB 3.1 Gen 2 Type-A port, two USB-C™ that support fast charging, data transfers and external displays and also a microSD card reader.

Power and beauty, evolved

All this power is contained in an incredibly compact and light aluminum unibody weighing 1.1kg and CNC-milled for added strength, enabling ZenBook S13 to meet the military-grade MIL-STD-810G durability standard. Coming in slim, sleek and in the new Utopia Blue color, ZenBook S13 is the perfect balance of performance and beautiful aesthetics for those who want a powerful yet stylish notebook.

Unbounded beauty

The all-new frameless NanoEdge design of ZenBook Flip 15 brings a whole new dimension to your viewing experience. The ultrathin bezels give you expansive and immersive visuals that are distraction-free, making work or play a true pleasure.

PANTONE® Validated display

The 4K UHD NanoEdge display on ZenBook Flip 15 is truly awe-inspiring, with pin-sharp detail and bright, vivid colors for more lifelike images. It’s gorgeous for everyday use, and is PANTONE® Validated with factory-calibrated color accuracy, making it a dream for graphics professionals.

Gaming-grade graphics

The GeForce GTX 1050 Max-Q discrete graphics chip in ZenBook Flip 15 uses the groundbreaking NVIDIA Pascal™ architecture to give you desktop-level performance in a laptop. With its dedicated video memory, ZenBook Flip 15 delivers the silky-smooth speed you need for whatever your creative graphics task — such as video rendering, photo editing or 3D modeling.

Ultratough: military-grade durability

ZenBook Flip 15 meets the ultra-demanding MIL-STD 810G military standard for reliability and durability, undergoing a punishing test regime that includes extended tests for operation in harsh environments including extreme altitudes, temperatures and humidity. It has also passed ASUS internal laptop tests that far exceed the standards set by the industry.

4-sided NanoEdge

ZenBook Flip 15 features a frameless four-sided NanoEdge display with a world-leading 90% screen-to-body ratio that not only provides stunningly beautiful visuals, but gives it ultra-compact dimensions so it’s smaller than ever before — and easier to carry anywhere!

The world’s smallest 13”, 14” and 15” laptops*

Everything in the elegant new ZenBook series is designed to empower your creativity. Enjoy the breathtaking new frameless NanoEdge display, appreciate the tremendous power of the up to 8th Gen Intel® Core™ i7 processor and high performance NVIDIA discrete graphics, marvel at the unique ErgoLift hinge and exclusive NumberPad touchpad, and admire the timeless beauty of the ultracompact design. ZenBook is waiting: are you ready to unleash your creative vision?

Unbounded beauty with frameless NanoEdge display

Designed to give you the most screen area in the least physical space, the new frameless four-sided NanoEdge design of the new ZenBook series is simply breathtaking: it makes any visuals immensely, with less distraction for your eyes.

Exclusive NumberPad

Tap the NumberPad icon at the top right corner of the touchpad, and an illuminated numeric keypad appears. With NumberPad you can quickly perform data entry or calculations, and in touchpad mode the glass covering provides super-smooth and precise fingertip control with multitouch gesture support.

The laptop that recognizes you!

The advanced infrared (IR) camera on ZenBook 13.14 and 15 has seen-in-the-dark capabilities that ensure fast, reliable hands-free face login with Windows Hello — even in dim environments. From wake-up to login takes only around a few seconds and unlike some rivals with awkwardly placed cameras, on ZenBook 13.14 and 15 it’s sensibly located on the slim top bezel of the NanoEdge display — yet another thoughtful ZenBook design detail.

colors that match your vibe

When it comes to looks, VivoBook S15/14 doesn’t do boring traditional laptop colors. Instead, it has striking hues that let you express yourself, adopting a color-blocking approach to pair the bright and bold with more subtle colors for a laptop that visually immerses in a much more compact package. The new NanoEdge display on VivoBook S15/14 continues to push the boundaries of what’s possible — the new three-sided NanoEdge display now has an even narrower bezel along the top and sides of the display. This results in an 86% screen-to-body ratio that provides unrivaled immersion in a much more compact package.

ROG ZEPHYRUS S (GX701)
GO BIG. STAY SLIM

Go Big. Stay Slim

ROG Zephyrus S set the standard for ultra-slim Windows 10 gaming laptops. Now it has bigger aspirations with a super-narrow-bezel 17-inch display in a chassis just 18.7mm thin. Zephyrus S GX701 is loaded with up to a GeForce RTX™ 2080 with Max-Q Design GPU and 8th Gen Intel® Core™ i7 CPU. Immense in its 144Hz/3ms panel with Pantone® validated colors, and use the ROG-exclusive GPU switch to change between G-SYNC™ for gaming and Optimus for battery life.

Quickly Switch Gears for Work and Play

Don’t be fooled by its lithe body. ROG Zephyrus S has ample power for AAA games, VR experiences, and serious creative work. The six-core 8th generation Intel® Core™ i7 CPU and GeForce® GTX 1070 with Max-Q design GPU deliver desktop-like performance, while an NVMe SSD up to 1TB offers speedy storage for your growing game library and professional portfolio.

Spectacular Visuals Mix Speed and Precision

Slender bezels draw you deeper into the action on the 144Hz IPS-level display. The high refresh rate makes gameplay smoother and lowers input lag, while the 3ms grey-to-grey response time produces sharper visuals with no blurring. Color accuracy and uniformity are critical for content creators, so factory calibration and ProArt™ TruColor Technology deliver a Pantone® Validated palette.
After redefining ultra-slim gaming laptops with the original Zephyrus, ROG brings hardcore gaming to an even thinner design framed by super-narrow bezels. ROG Zephyrus S uses innovative engineering to cool its GeForce RTX™ 2080 with Max-Q design and 8th Gen Intel® Core™ i7 processor, so you can immerse yourself in its no-compromise 144Hz/3ms display.

Cool Under Pressure

The unique ROG Active Aerodynamic System (AAS) expands to help Zephyrus S sustain high GPU clocks with demanding games. Lifting the lid opens a 5-mm intake that increases airflow by up 22% compared to traditional designs. Anti-dust tunnels keep the four heatsinks clean to preserve cooling performance and system stability as the hours add up.

Shrinking Bezels Without Sacrificing Speed

Super-narrow bezels draw you deeper into the action on the 144Hz IPS-level display. The high refresh rate makes gameplay smoother and lowers input lag, while the 3ms gray-to-gray response time produces sharper visuals with no blurring. With the full sRGB color gamut and wide viewing angles, ROG Zephyrus S blends speed and beauty without compromise.
Precision Knows No Bounds

With up to the latest NVIDIA GeForce RTX™ 2070 and Intel® Core™ i7-8750H, ROG Strix SCAR II brings even more power and style to FPS esports gaming. Available in 15- and 17-inch models, Strix SCAR II boasts the world’s first 144Hz super-narrow-bezel display with an ultrafast 3ms gray-to-gray (GTG) response time for unmatched smoothness and response.

NVIDIA Turing™ architecture offers incredibly photorealistic graphics, thanks to AI-enhanced image processing and real-time ray tracing. The latest 8th Gen Core CPU handles every task quickly and efficiently.

Unleash Maximum Performance with HyperCool Pro

Powerful cooling system unlocks the potential of the high-performance 8th Gen Intel Core™ CPU and GeForce RTX™ 20-Series GPU.

Zen AiO 27 is the ideal tool for graphics professionals thanks to its 27-inch 4K UHD NanoEdge display with a 100% sRGB color gamut. It delivers pin-sharp detail and bright, vivid colors for more lifelike images. In addition, the display is PANTONE® Validated and has a Delta-E value of less than 2.0, providing outstanding color accuracy for exceptional colors.

A perfect viewing position

Zen AiO 27 features built-in 7.5W Qi wireless charging in its base, allowing users to fast-charge a Qi-compatible mobile device by simply placing it on the base. In another new design feature, ASUS engineers have incorporated the internal components into an ergonomically designed stand and base. The stand features tilt, swivel, and height adjustment to ensure the perfect viewing position, every time; while the base provides improved cooling for its high-performance components and can be easily opened to provide access to the storage and memory modules for hassle-free upgrades.

Harman Kardon-certified audio

Zen AiO 27 delivers fully immersive sound certified by audio specialists Harman Kardon. A high-quality 300cc, 30W quad-speaker system with an advanced bass-reflex design — typically found in high-end speaker systems — delivers smooth, power bass and clear, full-range sound that has to be heard to be believed.

Vivo AiO all-in-one PC with NanoEdge display is Designed for Family Living

Vivo AiO V272 features an up to 8th Generation Intel® Core™ i7 processor and NVIDIA® GeForce MX150 graphics for uncompromising performance. The 27-inch multi-touch display has a wide 100% sRGB color gamut and 178° wide-view technology for truly great visuals, and combines with the ASUS SonicMaster audio system with its bass-reflex speakers to offer a superbly immersive entertainment experience.

Vibrant and vivid!

The NanoEdge display on Vivo AiO V272 features wide 178° viewing angles, and 100% sRGB color gamut for vivid and realistic-looking colors. It also includes exclusive ASUS Splendid technology to ensure true-to-life colors — whether it’s an image of a sunset, a clear blue sky, or subtle skin tones. Its Full HD resolution is further enhanced with exclusive ASUS Tru2Life Video technology, which optimizes sharpness and contrast for every pixel in every video frame for clearer, more realistic video imagery.

Power through everyday tasks

Powered by the latest energy-efficient 8th Generation Intel® Core™ processors and NVIDIA® GeForce® MX150 graphics, Vivo AiO V272 delivers effortless performance for smooth multitasking, so whatever task is at hand, you’ll power through it with ease! Vivo AiO V272 is the perfect solution for your everyday computing needs, whether you want to surf the web, watch videos, or just catch up with emails.

Advanced bass-reflex speakers

For amazingly immersive multimedia experiences, Vivo AiO V272 has a hugely powerful audio system. The two integrated high-quality stereo speakers are capable of delivering 6W of pure and rich sound, and benefit from an advanced bass-reflex design — a design typically only available in hi-fi speaker systems — to deliver smooth, powerful bass and clear, full-range sound that has to be heard to be believed.
