PRODUCT GUIDE

GAMING CASE

ROG STRIX HELIOS

Make for Showcase Builds

- Premium Design & Aesthetics: Three 4mm, smoked tempered-glass panels, refined brushed-aluminum frame and integrated addressable Aura Sync RGB LEDs.
- Effortless Cable Management: A multifunction cover with graphics card holders, a PSU shroud and a translucent rear cover for a sharp, clean look.
- Ready for Serious Cooling: Supports an up to EATX motherboard, with room reserved for 420mm front radiators, a water-cooling pump and a reservoir.

TUF GAMING GT501

Be cool, Be Outstanding

- Designed to be noticed: Metal front panel with custom TUF Gaming spatter pattern, and 4mm-thick, smoked, tempered-glass side panel to showcase your build's internals.
- Mobile battle station: Ergonomic, woven-cotton carry handles enable easy and safe transport up to 30Kg.
- Space reserved for both front- and top-mounted 360mm water-cooling radiators plus a 140mm radiator at the rear.

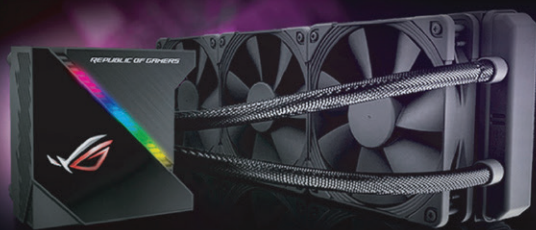

TUF GAMING GT301

Made for Compact Battlestation

- Stylishly design: Perforated honeycomb front panel to aid airflow and features a tempered-glass side panel to showcase your build's internals in the compact case.
- Efficient cooling: Equipped with three 120mm Aura Sync addressable RGB-illuminated fans and one 120mm rear fan, plus up to six fan-mounting points for targeted airflow.
- Extensive storage options: up to 2 HDD (trays included) and 6x SSD (2x dedicated bracket included, one is on the power supply shroud) mounting locations.

AIO COOLER

ROG RYUJIN 360

■ Noctua iPPC Fan

Industrial-grade Noctua iPPC-2000 PWM fans deliver high airflow and minimal noise.

■ Pump Embedded Fan

Embedded microfan helps to cool VRM and M.2 area by up to 20°C.

■ LiveDash Color OLED

1.77" color OLED for real-time system stats and personalized logos or animations.

ROG STRIX LC 360 RGB

- Triple ROG 120mm addressable RGB radiator fans
- Individually addressable RGB and NCVM-coating pump cover accentuates the sleek, modern aesthetics
- Styled to complement ROG motherboards, at the center stage of your build

ROG STRIX LC 120 RGB

- ROG 120mm addressable RGB radiator fan
- Individually addressable RGB and NCVM-coating pump cover accentuates the sleek, modern aesthetics
- Reinforced, sleeved tubing for increased durability

ROG RYUJIN 120

■ LiveDash Color OLED

1.77" color OLED for real-time system stats and personalized logos or animations.

■ ROG Radiator Fan

Specifically tuned for optimized airflow and static pressure.

■ Aura Sync

Individually addressable RGB lighting adds a subtle glow that highlights the CPU at the heart of any build.

TUF GAMING LC 240 RGB

- Dual TUF 120mm RGB radiator fans
- Fan blade groove design for optimized airflow and reduce fan noise.
- NCVM-coating pump cover accentuates the rugged, modern aesthetics
- Styled to complement TUF Gaming motherboards, at the center stage of your build
- Reinforced, sleeved tubing for increased durability

PSU

ROG THOR 1200P

Hardness Thunder

- Aura Sync : Advanced customization with addressable RGB LEDs and Aura Sync compatibility
- OLED Power Display : Real-time power draw monitoring with OLED Power Display
- ROG Thermal Solution : 0dB cooling with dustproof IP5X Wing-blade Fan and ROG heatsink design
- 80 PLUS Platinum : Built with 100% Japanese capacitors and other premium components

ROG THOR 850P

Hardness Thunder

- Aura Sync : Advanced customization with addressable RGB LEDs and Aura Sync compatibility
- OLED Power Display : Real-time power draw monitoring with OLED Power Display
- ROG Thermal Solution : 0dB cooling with dustproof IP5X Wing-blade Fan and ROG heatsink design
- 80 PLUS Platinum : Built with 100% Japanese capacitors and other premium components

ROG STRIX 850G WHITE

Pristine Chilled Power

- ROG heatsinks cover critical components, delivering lower temperatures and reduced noise.
- Axial-tech fan design features a smaller fan hub that facilitates longer blades and a barrier ring that increases downward air pressure.
- Dual ball fan bearings can last up to twice as long as sleeve bearing designs.
- 0dB Technology lets you enjoy light gaming in relative silence.

ROG STRIX 850G//750G//650G

Frozen Silence

- ROG heatsinks cover critical components, delivering lower temperatures and reduced noise.
- Axial-tech fan design features a smaller fan hub that facilitates longer blades and a barrier ring that increases downward air pressure.
- Dual ball fan bearings can last up to twice as long as sleeve bearing designs.
- 0dB Technology lets you enjoy light gaming in relative silence.

ACCESSORIES

ROG AURA TERMINAL

- ROG Halo: Enables ambient RGB synchronization to reflect in-game action when LED strips are mounted behind the monitor
- Synchronize lighting with Aura Sync addressable gear for stunning PC gaming illumination
- Illuminated ROG logo: Four built-in Aura lighting effects

ROG STRIX RISER CABLE

- ASUS Patent SafeSlot™ PCI-E: Featuring a new manufacturing process that integrates fortifying metal and additional solder points, SafeSlot™ makes sure your graphics card connection solid and stable.
- Bendable, Flexibility And Efficiency: Slim, flat and foldable design achieves transmission efficiency and stability, and easy cable management.

ROG EYE

- Crisp, Full HD (1080p) 60FPS output provides detailed and smooth video quality
- Brighter and clearer face views with Face Auto Exposure technology
- WDR technology and blue glass prevents infrared light and overexposure in backlit conditions

ROG ADDRESSABLE LED STRIP

- High-brightness addressable RGB strip with individually programmable LEDs
- Magnetic backing for easy attachment to metal surface, and a 3M™ DIY kit with double-sided tape for other surfaces
- Synchronize lighting with Aura Sync gear via 3-pin addressable RGB headers on motherboards for infinite lighting possibilities
