

ASUS

ASUS BR1100F

Strong, flippable power for learning

US military-grade durability

Modular design

10 hours battery life

WiFi 6 (optional)

4G LTE (optional)

360° ErgoLift Hinge

ASUS BR1100F is the best learning companion for students of all ages, with a tough, innovative design that's made to last. As well as a versatile touchscreen display and stylus, there's also a 360° hinge and a world-facing camera. It's packed with clever protective features, including an all-round rubber bumper, spill-resistant keyboard and ultrathough I/O ports. BR1100F also supports up to WiFi 6 and optional 4G LTE, and has AI-powered noise-canceling technology for high-quality remote learning and conferencing.

 Windows 10

Unlock Limitless Learning

US Military-Grade Durability

Classrooms can be tough, but ASUS BR1100F is tougher! Built to surpass demanding US military-grade MIL-STD-810H durability standards, it's also torture-tested to pass stringent ASUS quality tests. It can withstand occasional drops of up to 120 cm — more than standard desk height — and the spill- and tamper-resistant keyboard can cope with liquid spills of up to 330 cc without harm. The hinge and I/O ports are fully tested to endure the stresses and strains of everyday use.

Easy maintenance for uninterrupted learning.

For easy on-site servicing and reduced downtime, ASUS BR1100F has a modular design that allows key components — such as the keyboard, battery, thermal module and I/O ports — to be replaced in minutes using simple tools. As well, the underside is secured attached using captive screws, eliminating worries about losing these little parts during repairs.

Noise cancelation

To provide exceptional remote learning and video-conferencing experiences, ASUS BR1100F features innovative ASUS AI noise-canceling technology that employs machine learning in order to isolate unwanted noise from human speech. Try the demo to experience the amazing difference that ASUS AI noise-canceling technology can make.

TÜV Rheinland Eye Care Certification

ASUS BR1100FKA features an 11.6-inch HD touchscreen with 1366 x 768 resolution and wide 178° viewing angles. The display of ASUS BR1100FKA also features Low Blue Light mode and Anti-Flicker technology (Direct Current mode) and has passed TÜV Rheinland Eye Care certification. These features can greatly reduce harmful effects of blue light and display blinking.

ASUS BR1100FKA

- Windows 10 Home / Windows 10 Pro
- Intel® Celeron® N4500 Processor
- Up to 64 GB eMMC
- Up to 8GB DDR4 2400MHz RAM
- 11.6" LED backlit, HD (1366 x 768) 16:9 IPS glossy touch panel, 250 nits brightness
- Power and internet status LED indicator
- Up to WiFi 6 (802.11ax) and 4G LTE support (optional)
- Noise-reducing camera
- 13MP world-facing camera
- 4096-level stylus with charging garage
