ASUS EDUCATION

Evolve Education **with AI**

Smarter tools. Better learning. Real results.

Reimagine Learning: **Why Education Needs AI Now**

As the world rapidly evolves, education must adapt—and AI is driving that change. ASUS Education devices powered by AI help schools boost productivity, enhance collaboration, and inspire creativity—redefining what learning can be.

- Faster Performance
- Closer Collaboration
- Greater Creativity

* AI features may vary by models.

AI-powered laptops help bring AI learning to life through **ASUS Education Solutions.**

- ASUS AI ExpertMeet
- Copilot+PC for Windows devices
- Intel® Core™ Ultra processors
- Google AI for Chromebooks
- AI Noise Cancelation
- AI Camera

ASUS AI ExpertMeet

Smarter Meetings with AI

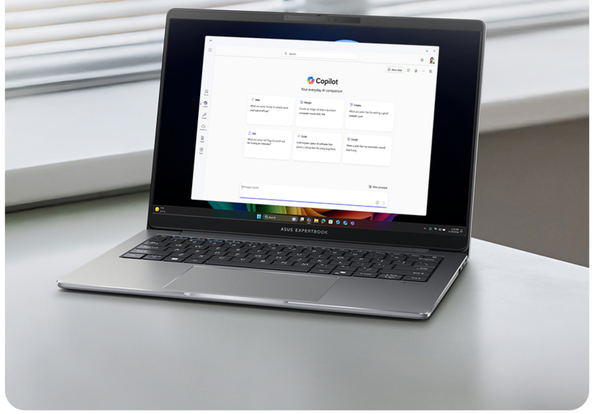

ASUS AI ExpertMeet delivers AI-generated meeting summaries and real-time translation to support inclusive, efficient communication. Teachers can review and share lessons with ease, while students stay engaged—regardless of language.

Copilot+ PC

Bring Ideas to Life with AI

ASUS laptops with Windows Copilot+ bring classroom-ready AI tools for writing, summarizing, and visual creation. Teachers streamline daily tasks, while students bring ideas to life with greater speed and creativity.

AI Audio & Video Enhancements

Crystal-Clear Learning, Anywhere

AI-enhanced camera framing and background noise filtering keep learning focused and distraction-free. Teachers maintain clarity and connection, while students stay immersed whether in person or online.
