**Important:** Please store this card in a secured location for future reference. ASUS reserves the right to request this document before accepting repair requests. This does not affect or limit your mandatory statutory rights.

This ASUS manufacturer warranty (hereafter referred to as the “Warranty”) is granted by ASUSTeK Computer Inc. (hereafter referred to as “ASUS”) to the purchaser (hereafter referred to as “You”) of the ASUS computer system (hereafter referred to as the “Product”). This warranty is being delivered with the Product, subject to the following terms and conditions. ASUS accredited Service Agents and Repair Centers will provide the services covered under this Warranty.

## **Warranty period of the Product**

This warranty applies for the period defined on the label sticker at the back of the Product (“Warranty Period”). For example: 24M means 24 months, and 36M means 36 months from the warranty started date. This warranty commences on the date the Product was first purchased by an end-customer (“Date of Purchase”). If the Date of Purchase is not applicable, the start of the Warranty Period will be on the date the Product was first activated by an end-customer recorded by ASUS (“Date of Activation”). If Date of Activation cannot be applied or proof of purchase cannot be provided, the manufacture date as recorded by ASUS will be deemed to be the start of the Warranty Period.

## **Warranty period of battery**

The warranty period of the battery may vary for different products. The battery warranty only covers material defects or workmanship resulting in failure, and does not cover any changes in battery capacity. For detailed information, contact the ASUS Call Center.

## **Statutory Guarantees**

This warranty is given independently of any statutory rights that may apply in the country of purchase and does not affect or limit such statutory rights in any manner whatsoever.

### **1. General**

ASUS warrants the Product to be free from defects in workmanship and materials for the Warranty Period. The Warranty does not cover bundled accessories, which were delivered together with the Product such as: cables, bag, mouse etc. If the Product fails during normal and proper use within the Warranty Period, ASUS, at its discretion, will repair or replace the defective parts of the Product, or the Product itself, with new or reconditioned parts

or products that are functionally equivalent or superior to those originally supplied.

This Warranty applies only if the Product was newly manufactured on the Date of Purchase and not sold as used, refurbished or manufacturing seconds. Please keep the proof of purchase and this warranty card for future service request. This Warranty does not include failure caused by improper installation, operation, cleaning or maintenance, accident, damage, misuse, abuse, non-ASUS modifications to the product, any third party software programs, normal wear and tear or any other event, act, default or omission outside ASUS' control. For further details, see section 6 of this Warranty Card.

All components that an ASUS Service Center repaired or replaced will be under warranty for three months or for the remainder of the warranty period, whichever is longer. The Repair Center may recover the originally configured operation system bundled with the Product. **ASUS will not restore or transfer any data or software from the Product's original storage media. If the Product is repaired, all user generated data may be permanently deleted.**

If the Product is under Warranty, You hereby agree to transfer the ownership of replaced defective parts and such parts shall automatically become the property of ASUS.

## 2. Software Support

Any software delivered with the Product is provided "as-is". ASUS does not guarantee uninterrupted or error-free operation of any software provided with the Product.

This warranty covers the hardware of the Product. ASUS will provide technical support for the Product's preinstalled software only when it concerns the proper functioning of the hardware. For other problems with the software, we advise You to review the user manuals, the ASUS support web site and/ or other online resources. Third party software may require support from the respective vendors.

## 3. TFT LCD Defect Policy

Despite the highest possible standards, the intricate manufacturing of thin film transistor (TFT) liquid crystal display (LCD) screens may still produce slight visual imperfections. These visual imperfections do not impair the performance of Your Product.

However, ASUS will provide the warranty service for Your ASUS Product's TFT LCD screen only if there are at least:

- 3 bright pixels or 5 dark pixels or 8 bright and/or dark pixels in total; or
- 2 adjacent bright pixels or 2 adjacent dark pixels; or

**NOTE:** A bright pixel is a white or sub-pixel that is always on under BLACK pattern. A dark pixel is a dark or sub-pixel that is always off under patterns excluding black.

---

The inspection conditions are:

- Not less than 30cm distance, in a straight line, between TFT screen and inspector
- Room temperature between 20~40°C
- Lighting is between 300 and 500 lux
