This ASUS manufacturer warranty (hereafter referred to as the “Warranty”) is granted by ASUSTeK Computer Inc. (hereafter referred to as “ASUS”) to the purchaser (hereafter referred to as “You”) of the ASUS computer system (hereafter referred to as the “Product”). This Warranty is being delivered with the Product, subject to the following terms and conditions. ASUS accredited Service Agents and Repair Centers will provide the services covered under this Warranty.

Warranty period of the Product:

This warranty applies for the period defined on the label sticker at the back of the Product (“Warranty Period”). For example: 24M means 24 months, and 36M means 36 months from the date the warranty started (“Warranty Start Date”). This warranty commences on the date the Product was first purchased by an end-customer (“Date of Purchase”), and terminates on the end of the Warranty Period (“Warranty End Date”). If the Date of Purchase is not applicable, the start of the Warranty Period will be on the date the Product was first activated by an end-customer recorded by ASUS (“Date of Activation”). If Date of Activation cannot be applied or proof of purchase cannot be provided, the manufacture date as recorded by ASUS will be deemed to be the start of the Warranty Period. If the Warranty End Date falls upon a national holiday or any non-business day, it will be extended to the next business day. The actual Warranty End Date may vary depending on the countries national holidays or non-business days.

Warranty period of battery:

12 months warranty from the Date of Purchase.

Statutory Rights

This warranty is given independently of any statutory rights that may apply in the country of purchase and does not affect or limit such statutory rights in any manner whatsoever.

1. General

ASUS warrants the Product to be free from defects in workmanship and materials in the country where you originally bought your ASUS product

during the Warranty Period. Please note that the warranty terms of bundled accessories may differ from the Product in different countries, please refer to <https://www.asus.com/support> or <https://rog.asus.com/support> for more details. (Please select your product by choosing your product series / product model to see its warranty) If the Product fails during normal and proper use within the Warranty Period, ASUS, at its discretion, will repair or replace the defective parts of the Product, or the Product itself, with new or reconditioned parts or products that are functionally equivalent or superior to those originally supplied.

This Warranty applies only if the Product was newly manufactured on the Date of Purchase and not sold as used, refurbished or manufacturing seconds. Please keep the original purchase invoice and this warranty card for future service request. This Warranty does not include failure caused by improper installation, operation, cleaning or maintenance, accident, damage, misuse, abuse, non-ASUS modifications to the product, any third party software programs, normal wear and tear or any other event, act, default or omission outside ASUS' control. For further details, see section 6 of this Warranty Card.

All components that an ASUS Service Center repaired or replaced will be under warranty for three months or for the remainder of the warranty period, whichever is longer. The Repair Center may recover the originally configured operation system bundled with the Product. **ASUS will not restore or transfer any data or software from the Product's original storage media. If the Product is repaired, all user generated data may be permanently deleted.**

Upon replacement of a Product or part(s) under this Warranty, the original Product or part(s) shall automatically become the property of ASUS. You agree to transfer the ownership of the original Product or part(s) to ASUS and to return it to ASUS if applicable.

2. Software Support

Any software delivered with the Product is provided "as-is". ASUS does not guarantee uninterrupted or error-free operation of any software provided with the Product. Refer to software license or end user license agreement for support from the respective vendors.

3. Display Panel Defect Policy

Despite the highest possible standards, the intricate manufacturing of the display panel may still produce slight visual imperfections. These visual imperfections do not impair the performance of Your Product.

However, ASUS will provide the warranty service for Your ASUS Product's display panel only if there are at least:

- 3 bright pixels or 5 dark pixels or 8 bright and/or dark pixels in total; or
- 2 adjacent bright pixels or 2 adjacent dark pixels; or
- 3 bright and/or dark pixels within an area 15 mm in diameter.

NOTE: A bright pixel is a white or sub-pixel that is always on under BLACK pattern. A dark pixel is a dark or sub-pixel that is always off under patterns excluding black.

The inspection conditions are:

- Not less than 30cm distance, in a straight line, between the display panel and the inspector
- Room temperature between 20~40°C
- Lighting is between 300 and 500 lux

4. Customer responsibility

When using the Product

- Read the user manual first and use the Product only according to the user manual.
- Do not leave the Product connected to the power supply once it is fully charged and not turned on. Some electrical items are not designed to be left connected to the power supply for extended periods of time.
- Periodically back up your data stored on the Product.
- Keep the original packaging. In case the Product needs to be returned for repair, original packaging provides a better protection for the Product during transportation.
- Please check the manual and the ASUS support website for troubleshooting solutions, before contacting the customer service.
- If the Product is designed with the TPM (Trusted Platform Module) function, keep the embedded security chip pre-boot password in a safe place (**Note: Due to the design of TPM, it is not possible for**

ASUS to reset the embedded security chip pre-boot password. If the password is lost, the Product can only be repaired by replacing the entire motherboard, which is not covered under the Warranty.)

When contacting ASUS Customer Service

- Before contacting ASUS technical support, ensure that You have the Product in front of You and that it is turned on, if feasible. Please also be ready to provide the Product's serial number, the model name and proof of purchase.
- Technical support hotline phone number can be found at <https://www.asus.com/support> or <https://rog.asus.com/support>.

 - Restoring the Product's operating system, factory-installed drivers, and applications to the factory default settings.
 - Installing updates, patches or service packs.
 - Running diagnostic tools and programs on the Product.
 - Allowing the ASUS technical support agent to access the Product with remote diagnostic tools (when available).
 - Performing other reasonable activities requested by ASUS, which will assist in identifying or resolving the problems.
- If the problem is not solved remotely, you will have to return the Product to an ASUS Repair Center (this process is called "RMA"). ASUS will issue an RMA number for Your Product. Please record Your RMA Number for tracking purposes.
- Describe the problem clearly and completely on the RMA request form.
- Enclose a copy of this completed warranty card and a copy of Your sales invoice/receipt detailing the purchase of Your Product. (Please note: ASUS reserves the right to request the original documents.) If You do not provide the requested documents for warranty validation then the manufacture date of the Product as recorded by ASUS will be deemed to be the start of the Warranty Period.
- **Ensure that You have fully backed up all the data stored on Your Product and removed any personal, confidential, or proprietary information before any service process is started. ASUS may delete any data, software, or programs installed on the Product without**

restoring them. ASUS shall not be held liable for the permanent loss, damage, or misuse of your data.

- Unless specifically requested by ASUS, please remove any accessories as well as any removable storage devices such as memory cards, discs, flash drives, from the Product and do not send in anything but the Product itself. ASUS shall have no liability for the loss, damage or destruction of accessories or removable storage devices, unless they are sent at ASUS' request and the damage or loss is caused by ASUS' intent or gross negligence.
- Remove or provide any password that You assigned to the Product. If access to the Product is blocked by passwords, then ASUS may not detect and repair all failures of the Product.
- If the Product is designed with the TPM (Trusted Platform Module) function, provide the embedded security chip pre-boot password.

5. RMA methods

If RMA is necessary, you have to deliver your product to the nearest ASUS Repair Center. ASUS may, in its sole discretion, simplify the service procedure by offering you to deliver the Product to the retail shop where you bought it or through a free pick-up and delivery service.

If the Warranty Period has lapsed or if any of the exclusions in the Warranty Exclusion Clause apply, Your request will be deemed out of warranty ("OOW").

If Your service request is OOW and if your product is repairable under ASUS evaluation, a Service Charge List with an offer for repair will be provided to You, which You may accept or reject. If You accept the repair and the service charge list, we will provide You with an invoice for the repair labor, spare parts and other costs stated in the Service Charge List. 筆記型電腦電池保固期限：

自購買之日起 12 個月。

法定條款：

如果您的保固需求被視為無效但您的產品在華碩公司的評估下可以進行維修，華碩公司將出具一份維修價格表，您可選擇接受或拒絕。如果您選擇進行維修且接受維修價格表，華碩公司將為您開立包含維修費用、料件費用以及其它在價格表上列出的項目費用的發票。您需要在發票發出後 14 天內完成支付，支付結清後才能完成維修。

10. 放棄所有權

當您的產品維修完成後或您不同意維修，華碩公司將透過原先維修服務流程約定的方式送回您的機器。如果您未取回您的產品，或按照您提供的地址無法送達，華碩公司將在 30 天內保管您的產品。在此期限過後，華碩公司將依據您申請維修服務時所提供的聯絡資料通知取件。如您仍未前來取回您的產品，華碩公司保留包括向您索賠保管費用、按照適用的法律法規處理產品以及任何對於未支付費用的法律留置權等權利。
